DECIDE FAIRMAN IS MURDER VICTIM

EVIDENCE SHOWS THAT COUSIN
OF DIXON WOMAN MET
FOUL PLAY.

SUSPECT WEST SIDE GANG

Had Expressed Fear of a Gang, at
Whose Hangout Place He
Was Last Seen.

That C. M. C. Fairman, Oak Park
broker and clubman, cousin of Mrs.
H. H. Heinze of Dixon, who was
ground to pieces on the Northwest-
ern near Wheaton Saturday night,
was murdered by a gang of Chicago
West Side horse traders and his
body placed on the track, was the
theory advanced yesterday in the
tragedy.

Further, it developed that Fair-
man had anticipated trouble with
the gang and the week before his
death expressed the fear that some
day he would "get a crack on the
head."

The horse traders have headquar-
ters at the Burlington hay market.
It is known positively that Fairman
was at the place Saturday morning
selling hay.

Sweetheart Collapses.
Miss Elizabeth Davidson, who was
to have been married to Fairman
late in March, arrived in Chicago
yesterday accompanied by her par-
ents. She was in a condition of col-
lapse and was taken to the home of
Mr. Fairman's uncle.

Fearful Gang.
According to Philip Hanna, close
friend of Fairman, the latter had ex-
pressed his fear of a gang on the
west side with whom he had to do
business and it is Hanna's belief
that the gang lured Fairman to the
vicinity of Wheaton under a pretext
of inspecting some hay and then
slugged him, robbed him and put
his body on the railroad tracks.

CARL BUSCH WANTS WRESTLING MATCH

MAT ARTIST WRITES FROM FAIR-
FIELD, IOWA, HE WILL
COME HERE.

Charles Busch, who styles himself
"Wrestler of Germany," open to all
comers from 165 to 185 pounds at
catch as catch can or Greco-Roman
style, writes from Fairfield, Ia., to
the Telegraph that he issues a chal-
lenge and would like to wrestle in
any of the local clubs. He will come
at any time the arrangements can be
made.

NORTH SIDE SCHOOL TO GIVE A COMEDY

STUDENTS WILL STAGE "THE
JUNIOR," A COLLEGE COM-
EDY, FRIDAY NIGHT.

The North Dixon high school stu-
dents will stage a clever college com-
edy, "The Junior" on Friday night
at the opera house. Seat sale will be-
gin Wednesday morning at Camp-
bell's drug store. The enterprise de-
serves a liberal patronage.

LOCAL CARRIERS IN ORGANIZATION

CARRIERS OF LOCAL OFFICE AF-
FILIATE WITH NATIONAL
ASSOCIATION.

The letter carriers of the Dixon
postoffice, at a meeting yesterday,
formed a local organization and took
steps toward affiliating with the Na-
tional Association of Letter Carriers.
The following officers were elected:
President—Lloyd Lewis.
Treasurer—Royce Hess.
Secretary—Earl Sennett.

WEATHER FORECAST

Dixon and vicinity: Cloudy and
probably unsettled tonight and Wed-
nesday. Not much change in tem-
perature.

Sunrise 6:32 a. m. Sunset 5:54
p. m.

Light lamps on motor vehicles at
5:54 p. m.

The following report of high and
low temperatures and precipitation is
taken each morning at 7 o'clock and
is for the preceding 24 hours:

DIG NEW YORK CITY FROM SNOW AND ICE

FIFTY THOUSAND MEN AND MIL-
LIONS OF DOLLARS ARE
REQUIRED.

(By the Associated Press)
New York, Mch. 3—Fifty thou-
sand men, including railroad em-
ployees, today began the gigantic job
of digging New York City out of the
snow and ice that had been left by
the three big storms, the last of
which continued for 36 hours.

The loss to the business interests
and railroads, and the cost to the
city and public and private corpora-
tions for the removal of the snow
will run into millions of dollars.

Twelve dead is the direct result
of the last storm. Conditions are rap-
idly assuming normal with weather
fair and rising temperature. Vice
President Marshall was snow bound
for 16 hours at New Brunswick, N.
J., and only reached Washington to-
day. It is the first time in 18 years
that he has been absent from Mrs.
Marshall so long.

HELD DOYLE FUNERAL HELD HERE TODAY

FORMER WOOSUNG RESIDENT
HAS SON, WILLIAM, LIVING
IN THIS CITY.

The remains of Patrick Doyle, who
died Saturday at his home in Aurora
following a stroke of paralysis, ar-
rived here at 12:50 this noon and
were taken to Oakwood cemetery,
where interment was made after a
short service conducted by Father
Foley.

Mr. Doyle, who formerly resided
west of Woosung, moved to Aurora
about three years ago and is sur-
vived by three sons, John and James
of Aurora and William of this city
and five daughters, Mrs. Barkley of St.
Charles and Mrs. Jessie Allen and
Misses Sarah, Tressa and Anna of
Aurora. Services were held at St.
Mary's church in Aurora at 9 a. m.
today.

COUNTY BOARD MET IN DIXON TODAY

SUPERVISORS HOLD SHORT SES-
SION THIS P. M.—MEET
TOMORROW.

The board of supervisors met this
afternoon and organized for the regu-
lar March meeting. G. Thomp-
son, representing Wyoming town-
ship, vice A. S. Wells, resigned. The
bills were referred to committees,
and two petitions for aid to the blind
were referred to the judiciary com-
mittee.

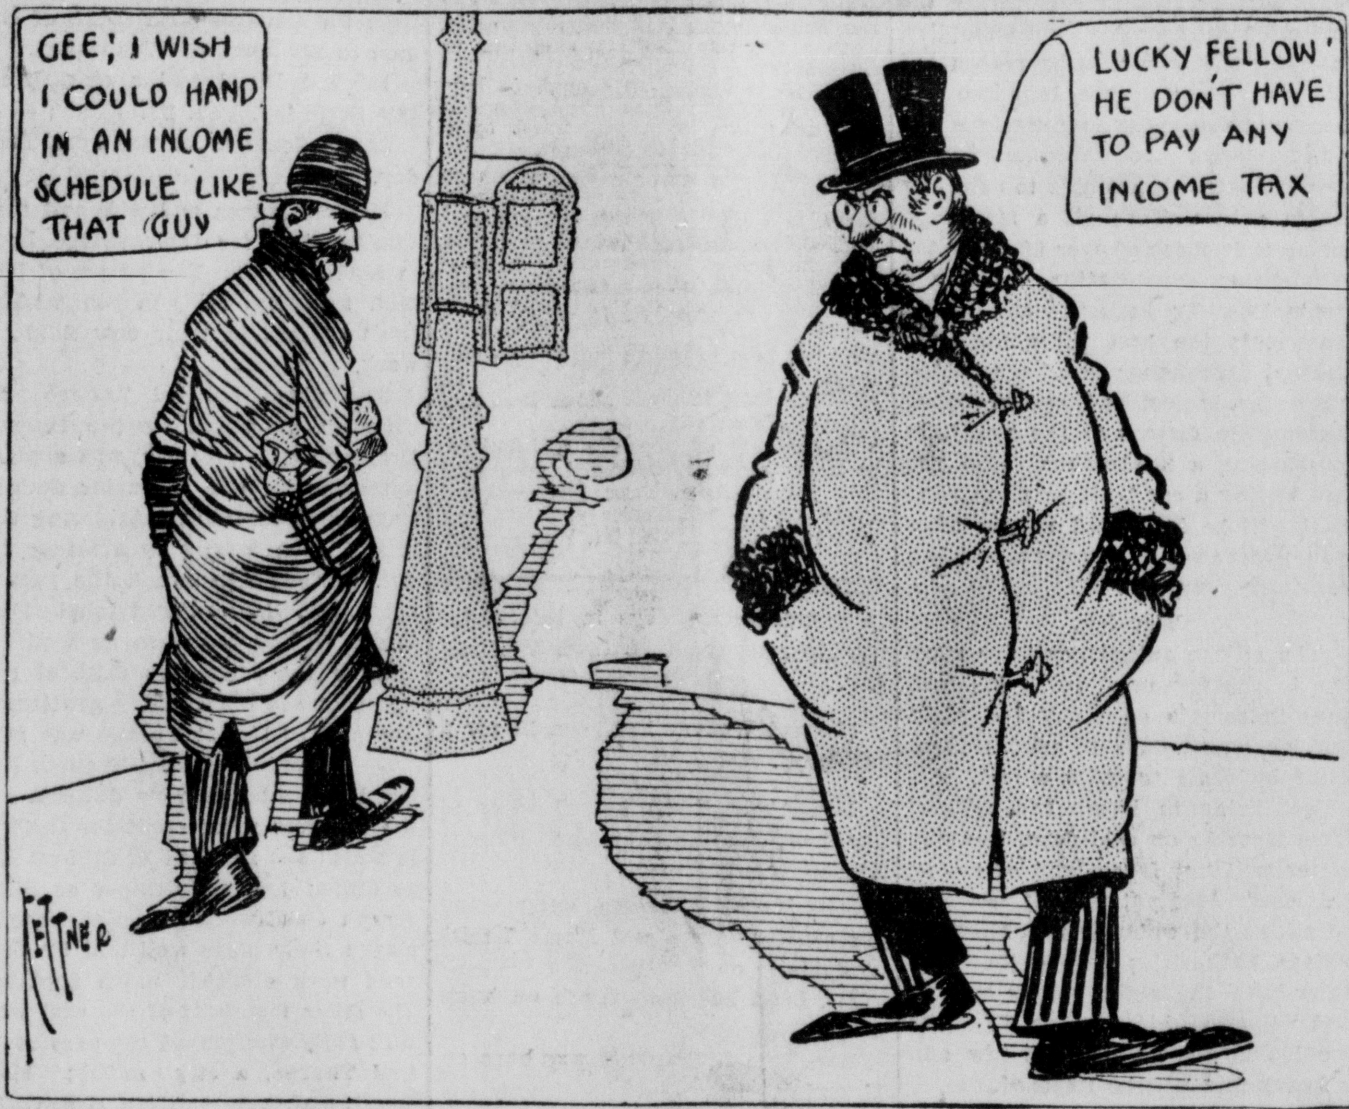

Supervisor Buckaloo called atten-
tion to the report of the state chari-
ties inspector, showing that the lo-
cal supervisors did not give names
of those receiving aid, as required by
law, and the judiciary committee
was instructed to investigate.

A. S. Wells' resignation as county
superintendent of highways, was pre-
sented and accepted, and the meet-
ing was adjourned until 9 a. m. to-
morrow.

BUILD FIRE ESCAPE

A fire escape is being built on the
armory to meet the state law re-
quirements.

ENVY!

MORRISON TEAM HERE SATURDAY

WILL PLAY RETURN GAME WITH
DIXON HIGH SCHOOL
ORGANIZATION.

Basketball lovers of the Dixon
high school are anticipating one of
the best games of the season here
Saturday night when the fast team
of the Morrison high school will play
a return game with the team from
Supt. Snyder's institution. The re-
cent game at Morrison was charac-
terized by considerable rough play-
ing, was very interesting, Dixon win-
ning by a close score. It is reported
that a number of Morrison students
expect to accompany the team to
Dixon.

CHANGE DATE OF THE FRANKLIN CAMP MEET

DIRECTORS OF THE FRANKLIN
GROVE CAMP MEETING MAKE
DATES JULY 9-19.

The directors of the Franklin
Grove camp meeting have found it
necessary to again change the date
for the annual meeting, conflict with
the Franklin Grove chautauqua in-
terfering with holding the sessions
as decided some time ago. The camp
meeting will be held July 9 to 19,
and the committees in charge have
begun preparation of the program
for those dates.

BRYAN HAS GRANDDAUGHTER

(By the Associated Press)
Washington, Mch. 3—Secretary of
State W. J. Bryan was somewhat
late reaching the president's cabinet
meeting this morning and affairs of
state were halted some little time,
all because of the advent into the
world of a little brand new baby
girl, daughter of Mr. Bryan's daugh-
ter, Mrs. Richard Hargreaves.

AILEEN HEPPNER IS ACQUITTED

(Associated Press)
Chicago, Mch. 3—Miss Aileen
Heppner, who was accused and has
been on trial for perjury in connec-
tion with her testimony in the Funk-
Henning alienation suit, was found
not guilty by a jury here today.

TAKES NEW OFFICE.

Architect M. H. Vail has leased
the office rooms in the Bovey build-
ing vacated by Drs. Baird and Mc-
Wethy.

WILLIAM M'GUIRK IS CAUGHT IN MISSOURI

FORMER PROMINENT LEE COUN-
TY MAN HAS SUNK FROM PROS-
PERITY TO TRAMP.

CHARGED WITH EMBEZZLEMENT
Deputy Sheriff Phillips Brings For-
mer Marion Resident Back on
Two Year Old Charge.

Wm. McGuirk, a former prosper-
ous resident of Marion township,
then wealthy in land and prospects,
was picked up as a tramp in St. Gen-
evieve, Mo., last week and today he
was brought to Dixon by Deputy R.
R. Phillips on a warrant issued from
Justice Ives' court in Amboy Jan. 9,
1912, charging embezzlement. He is
now in the Lee county jail after
avoiding the law for two years, dur-
ing which time he has sunk from
prosperity to deepest poverty, has
drifted aimlessly about until he has
become a vagrant.

Lived Fast Life.
It is charged that McGuirk, who
at one time had property in Marion
township, Chicago and Aurora, be-
came involved in several crooked
transactions in which he robbed his
friends and acquaintances and which
culminated when he is said to have
embezzled \$2500 from Mrs. Mary
Kelley of East Grove. For this the
warrant was issued which drove
him from the community and he
has gone from bad to worse; a guilty
conscience which caused him to be-
lieve detectives were always on his
trail caused him to give up positions
repeatedly and seek new territory.

Arrested as Tramp.

Last week the police at St. Gen-
evieve picked up a worthless, dirty
bum, one of the worst specimens that
ever dropped off in their city. They
questioned him closely, learned his
name and home, and notified the Lee
county authorities.

The old warrant was looked up,
Deputy Phillips went to the Missou-
ri city and today Bill McGuirk is
back home to answer for sins he is
said to have committed four and
five years ago.

MAY COMPROMISE THE BOARD OF TRADE CASE

(By the Associated Press)

Chicago, Mch. 3—The case against
the Chicago board of trade, in which
is charged illegal price fixing, may
never come before the federal court,
according to reports, as there are in-
dications that a compromise has or
is being offered.

SELF'S BOWLERS INCREASE THE LEAD

TAKE TWO GAMES FROM PETERS
MEN—NOW IN LEAD BY
FOUR GAMES.

Self's bowlers increased their lead
in the city bowling league last even-
ing by taking two of the three games
played with Peters' organization and
the blacksmiths now have a lead of
four full games. The standing of the
teams:

MRS. JAMES HARVEY IS CALLED IN DEATH

AFTER MANY YEARS' SUFFER-
ING FROM DROPSY, DIXON
WOMAN DIES.

Mrs. James Harvey passed away
at her home 712 Monroe avenue at
6:15 this morning, death resulting
from dropsy, from which she had
suffered for some time. The funeral
arrangements can not be made until
a sister, Mrs. C. O. Burke of Atlanta,
Ill., arrives this evening.

The deceased, whose maiden name
was Caroline Pipher, was born in
New York City May 4, 1871, and is
survived by her husband, five chil-
dren, her sister, and one brother,
Charles Pipher of Chicago, to whom
friends of the family tender sym-
pathy.

PEORIA FINANCIER IS DEAD

(By the Associated Press)

Peoria, Mch. 3—O. J. Bailey,
well known financier and one of the
wealthiest citizens of Peoria, died to-
day at his home here.

CITY IMPROVEMENT GIVEN PRIOR RIGHT

PLANS FOR ELECTION OF BOND
ISSUE FOR LINCOLN HIGHWAY
WILL BE DELAYED.

TO PAVE DIXON STREETS

Bond Issue to Have Been Voted Upon
at Spring Township Election
Will Come Up Later.

The committee that is interested
in putting Dixon on the Lincoln high-
way as a big, bright spot by having
a permanent boulevard across Dixon
township, has been asked to delay
the township vote on the \$50,000
bond issue until later, and has ac-
quiesced. The city officials are the
most active in the opposition to hav-
ing the matter brought before the
voters at present, on the ground
that there are certain improvements
needed inside the city limits that
will require a large expenditure of
money during the coming summer,
and that the two propositions com-
ing together would be impractical to
handle, and as they set forth, the
improvements within the city, in
the matter of brick pavements es-
pecially, are of more importance, the
Lincoln highway will have to wait.

It is the desire of the men inter-
ested in the Lincoln highway project
to have the bond issue proposition
brought up at a regular township
election, and not to have a special
election called, because of the ex-
tra expense entailed therein, and so,
from the present outlook, unless fur-
ther action is taken, the matter will
not get to the voters until a year
from the coming spring election.

The roads in Dixon township over
which the highway runs are passable
—although hardly more than that
in places—and it is urged that they
can wait another year. Pledges made
the administration board in the mat-
ter of brick pavements on certain
streets leading to the epileptic col-
ony must be fulfilled by the city and
there are many other schemes for
the paving of other streets that have
gone through all the preliminary
stages and must be completed this
summer.

There are those who feel that the
completion of the Lincoln highway
through this township is as impor-
tant a project as is before the city
today, but in the interest of harmony
it has been deemed advisable to
grant the city work the preference
and turn attention to the other af-
terward. The Telegraph is strongly
in favor of both plans of improve-
ment and hopes for the early culmi-
nation of the improvements of both
the city streets and the Lincoln high-
way.

MRS. JAMES HARVEY IS CALLED IN DEATH

AFTER MANY YEARS' SUFFER-
ING FROM DROPSY, DIXON
WOMAN DIES.

Mrs. James Harvey passed away
at her home 712 Monroe avenue at
6:15 this morning, death resulting
from dropsy, from which she had
suffered for some time. The funeral
arrangements can not be made until

pathy.

LIKES NEWS FROM DIXON.

In renewing her subscription to
the Telegraph Mrs. W. C. Godfrey
of Jerome, Idaho, writes, "We are
always eager for news of Dixon and
look forward to the coming of our
paper."

HAD OPERATION.

Mrs. George Gitt submitted to an
operation this morning at the hos-
pital. Reports indicate that the op-
eration will be successful.

BRITISH ATTITUDE IS STILL FRIENDLY

FOREIGN SECRETARY GREY IN
SPEECH IN HOUSE OF COM-
MONS TODAY.

WILL NOT LET MATTER REST

Great Britain Intends to Give U. S.
Full Sway, But Reserves Right to
Use Own Influence.

(By the Associated Press)
London, Mch. 3—The British gov-
ernment's view that no immediate
action in connection with securing
details of the Benton death, who
was killed at Jaurez, could be taken
was made plain today in the house
of commons by Foreign Secretary
Grey. The secretary, however, point-
ed out that if Great Britain failed to
secure satisfaction through the ac-
tivities of the United States, the Brit-
ish government reserves the right to
secure reparation wherever it is able
to do so and in whatever manner.

"Communications between Great
Britain and the United States are
still proceeding, but they do not im-
ply that the latter is in any way held
responsible for the death of Ben-
ton," Grey. So far, the United States
has shown as much interest in the
death in Mexico of a British subject
as it has in outrages against Ameri-
cans, for I understand several Ameri-
cans have been killed there. If the
United States thinks it proper to
take further steps in behalf of its
citizens or British subjects, we will
await results, but if it does not, we
reserve the right to exact reparation
whenever our power allows us.

No Invasion.
The secretary said his government
had no intention of sending an armed
force into Mexico but that does
not mean that we intend to let the
matter rest.

English Resentful.
Intense excitement is being dis-
played over the British Isles over
the attempt of Carranza, constitu-
tionalist leader, to sow discord be-
tween England and the United
States and his actions in delaying
the investigation of the death of
Benton.

Conference in Washington.

(By the Associated Press)
Washington, Mch. 3—The British
ambassador to Washington and the
British Minister to Mexico, Carden,
conferred with Secretary Bryan at
the capitol today. Later Secretary
went to the American cabinet meet-
ing, where the killing of Gustav
Bauch, the American and Benton,
the Englishman, was discussed. Car-
den will confer with President Wil-
son tonight and then will sail for
England tomorrow.

DISMISS CASES AGAINST BOYS

GIRLS REFUSED TO TESTIFY
AGAINST YOUTHS AND PROS-
ECUTION IS DROPPED.

Sterling, Mch. 3—Special—The
cases against Bealy Cox and Harry
McKenzie, charged with offenses
against Emma Dickey and Pearl
Cox, the young girls arrested at
Franklin Grove last week by Lee
county officials, were dismissed by
Justice J. G. Limerick because of a
lack of evidence. The parents of the
girls refused to allow them to testi-
fy at the hearing and consequently
the state had no evidence against
the boys. Because of the attitude of
the parents no attempt will be made
to prosecute any of the Lee county
young fellows implicated by the
girls in their confessions, but an ef-
fort will be made to have the girls
declared delinquent and taken to
the girls' home at Geneva.

MRS. FRENCH GETS DIVORCE

(Associated Press)

Newport, R. I., Mch. 3—Mrs. H.
French was today granted a divorce
from her husband, Amos T. French,
New York banker, on the grounds
of non-support.

A Liverite Tablet in Time Will Prevent Serious Illness

25c. In the Aluminum Box FOR SALE BY CAMPBELL & SON.

You can trace most intestinal troubles to an inactive liver. Constipation is one of the first symptoms; and soon grows to be one of the worst disorders that beset the human family.

At the first sign take

They stir into action the suppressed secretions, and nature does the rest. You'll never have a constipation or any form of liver trouble if you keep them handy and take one now and then as you need them.

WEST BROOKLYN NEWS

There was a good sized crowd in town Saturday afternoon attending the public sale at the Harry Christence home.

John C. Henker was in town from South Brooklyn Saturday.

A. P. Case has moved from his location on route 3, West Brooklyn, to a farm near Lee.

George J. Montavon was in town on business Saturday.

F. D. Gehant was in Ashton and Dixon on business the first of the week.

C. C. Weber was in town from South Brooklyn Friday.

Mr. and Mrs. Jacob Bulfer of Sublette were here on business matters pertaining to the transfer of their farm in Lee Center township to J. F. Bernardin, the deal being consummated through the Henry F. Gehant Banking Co. The transfer was completed Thursday.

Mr. and Mrs. C. A. Jeanblanc visited here from Compton Saturday.

James Morrissey of Harmon spent a couple of days this week in West Brooklyn, the guest of his son Edward and other relatives and friends. Henry July of the Platts was here on business Friday afternoon.

The Forrester family please bear in mind that they are all to gather at the club rooms Sunday morning, March 8th at 7:30. Every member of the seventy-two should be on hand. Don't find any excuse to keep you away.

The local banking institution has been the scene of much activity the entire week on account of the annual transaction of March 1st, business, and the closing of several real estate deals consummated through their real estate department. Their offices are always busy places at this time of the year.

Modest Vincent was here on business Saturday.

Subscribe for the West Brooklyn News. Its your home paper.

G. L. Jeanguenat of Dixon visited over Sunday in our town with relatives and friends.

George Halboth was here on business Friday.

W. J. Brucker of Mendota spent Friday afternoon here with his many friends.

Charles Barnickel transacted business in West Brooklyn Friday.

P. J. Sondgeroth had business dealings in Mendota Saturday.

Viola's hustling tax collector, L. F. Rees, made his usual visit to West Brooklyn Friday and succeeded in gathering in a quantity of taxes during the day. He will be with us again next Friday, for perhaps the last time as he is scheduled to return his books March 10th. Many of his friends, and he has many of them here, are insisting that he again be a candidate to succeed him self as collector of his township but thus far none of the persuasions have been effective, as Mr. Rees has not decided to enter the race as yet.

Charles Mackin was here on business Saturday.

Auctioneer F. E. Halsey who had charge of the Christence sale on Saturday afternoon did well and cried a remarkably good sale for not

having practiced much in late years. The people of this vicinity did not realize they had such an excellent auctioneer in their midst and now that he has proven himself Mr. Halsey is apt to have lots of work to do from now on. A new clerk also showed his hand, Henry W. Gehant, who was sent out from the bank in lieu of the cashier who was so busy with the March 1st rush that it was impossible for him to leave his desk. Both Mr. Halsey and Mr. Gehant acquitted themselves creditably and it is pleasing to know that two such apt personalities are to be in this vicinity for future use. Mr. Christence is well satisfied with his sale.

A. B. McCrea was in town on business Saturday. He had his auto all repaired and repainted at the local garage and drove it home that day. It looks like new.

Edward Henry of the local garage delivered a new Ford auto to John Florschuetz of Welland Saturday. Mr. Welland has two more deliveries to make this week if weather permits. He will unload another carload of these celebrated cars Monday.

Henry Haefner was in from Viola Saturday.

Geo. M. Capes of Pontiac is here looking after his farm north of town where his boys will farm the coming season.

Mr. and Mrs. U. G. Dysart were here Saturday.

Mrs. Josie Harris has returned to Rockford after a short visit here. She with her family will move here about April 1, we are informed.

You have moved but have you transferred your insurance policy? This is important and must not be overlooked. Perhaps you need more insurance in the new location; if so we would be pleased to write you up. Henry F. Gehant Banking Co.

Michael Barr of Compton was in town Saturday.

Frank Graf and brother of Ohio are here to work in this neighborhood the coming year. They like the conditions here better than where they live.

It pays to advertise, as was demonstrated a week ago Saturday when a good crowd was in town all day. Now, merchants, why not advertise continuously? Don't you realize that the only reason mail order houses beat you to your own customers is because they advertise and reach their homes? You can do as well and have a better chance.

Miss Frances Craig of Pawpaw and Miss Theresa Jeanguenat of Watman are home to spend Sunday.

Mathias and John Haub were here Saturday.

Wm. Montavon returned from his winter visit with home folks in Ohio on Saturday.

Wm. Wigum, Brooklyn's tax collector, will be at the bank here Monday and Thursday, at the Compton bank Tuesday and Friday and at the bank in Mendota Saturday. Last chance to pay your taxes as he must return his books March 10th. Now hurry.

A. F. Lyman of Scarboro came on Saturday and spent the day with old neighbors.

H. L. Gehant, Studebaker agent here, advises prospective purchasers

to consider four points of importance in buying a car. 1st, what kind of an organization, what factories and what resources are back of the car, and what kind of reputation have they built up? 2nd, is the car actually designed and manufactured by the company selling it? 3rd, what interest will the company and their dealers have in the purchaser after the car has been bought and paid for and what service can be given the owner of the car, if needed? 4th, what enables the Studebaker corporation to sell the purchaser such a car at so low a price? Mr. Gehant says further that in considering the price of Studebaker automobiles, please remember it is by reason of their excellent design, immense volume and method of manufacture and the Studebaker resources and buying power that they are able to offer you these values. Through a manufacturing experience of over 60 years the Studebaker organization has won a reputation for honesty and giving customers the best value for their money. Studebaker cars have behind them the largest and best equipped automobile factory in the world. In purchasing a Studebaker auto you are buying a car built by a company that will be interested in you after you purchase. Therefore consider carefully your next auto.

Warning.
The village authorities issue warning to the person allowing his hydrant to remain open day and night and on warm days to permit these same hydrants to enjoy a rest, the object being to keep the hydrant from freezing on cold days. Running water will not freeze and of course this party does not want it to freeze so allows the water to run. Now the village authorities are quite sure they have the right party spotted and will warn him in time for if the trouble is not quieted the law and a heavy fine will be imposed.

Telephone Service.
F. M. Yocum has received word from Dixon and Harmon to the effect that the telephone companies of those towns have decided to take off the telephone charges which have been imposed since Jan. 1. The other towns in the county now enjoy the same service. Mr. Yocum had arranged with all of them except Harmon and Dixon to furnish free toll service to his patrons and now that the two have decided to give in to their patrons we have the same free service over the county the same as in the past. Mr. Yocum was a great help to the patrons in keeping the old rate as he would not go into the combination to raise the rates and this, with the complaints of their customers and the fear of losing them altogether finally prevailed, and now we have the old service. Local of the executive board, elected Mr. Yocum for his work in this case.

AMBOY NEWS NOTES

Amboy, Mich. 2—Will Gridley returned to Amboy Wednesday. He is attending U. of I. at Champaign and on account of a scarlet fever scare will remain here for a few weeks.

Miss Kathryn Aschenbrenner of Bradford was here Thursday.

The Women's club met to consider the voting question, at the W. R. C. hall, Mrs. C. P. Miller in charge. Another meeting will be held at the call of the executive board, elected at the last meeting. All interested should attend.

Mrs. Chas. King of Lee Center was here Thursday.

Mrs. Davis visited her mother Mrs. Rice of Oswego, also in Chicago for several days.

Mrs. Jacob Wohnke spent several days in Dixon.

Mrs. H. Utley of Lee Center was here Thursday.

Mrs. Taylor and daughter were in Amboy Thursday.

Louis Entorf of Aurora spent Sunday here.

Fred Gridley has been ill with the grip for several weeks but is again at school.

Mrs. Tom Nicholson underwent an operation at the Compton hospital this week. At this writing reports are not very encouraging.

Miss Mary Virgil spent a week in Chicago.

The remains of Mr. Comstock of Chicago were brought here for burial Thursday. A short service was held at the chapel with burial at Prairie Repose. Mr. Comstock is a relative of Mrs. F. N. Vaughan.

Mrs. Bessie Pilcher of Shaws was here Wednesday.

The physics class of A. H. S. attended the meeting at W. R. C. hall Wednesday.

Mrs. Winn Smith and daughters Edna and Ruby were here on Wednesday.

Walter Wellman of Ottawa came

How to Make Better Cough Syrup than You Can Buy

A Family Supply, Saving \$2 and Fully Guaranteed.

A full pint of cough syrup—as much as you could buy for \$2.50—can easily be made at home. You will find nothing that takes hold of the ordinary cough more quickly usually conquering it in 24 hours. Excellent, too, for spasmodic croup, whooping cough, bronchial asthma and bronchitis.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help relieve a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is a most valuable concentrated compound of Norway white pine extract, rich in gualic acid and other natural healing pine elements. Other preparations will not work in this combination.

This Pinex and Sugar Syrup remedy has often been imitated, but the old one is most used in more homes than any other cough remedy.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

to spend several days in this vicinity. He returned to Ottawa Wednesday.

Howard Weaver has been ill for a few days.

Mrs. Abner Wells passed away at her home in Binghampton Friday, from pneumonia.

Miss Margaret Theiss entertained her cousins, Anna and Marie Theiss of Sublette on Thursday.

Mr. Loan has gone south on business.

Mrs. Tom Richardson was here on Thursday.

Walter Bedient and family expect to move to Binghampton soon. They have been residing here.

Mrs. Henry Walters from west of town was here Wednesday.

Louis Herzog and family are moving to John Landau farm near Lee Center.

The stork left a nice baby girl at the home of Mr. and Mrs. Frank Springer Thursday.

Mrs. Herzog is moving into the house formerly occupied by her son and family.

Philip Ollman was in town Thursday.

The Congregational choir held a rehearsal at the home of Miss Luella Dewey on Thursday evening.

Mrs. O'Reilly of Lee Center was here Thursday.

Mrs. A. Tait and daughter were in town Thursday.

C. C. Jacobs is here this week visiting his family.

A large crowd attended the dance Monday evening and report a fine time.

A double-header basketball game will be played in the opera house on Friday evening between the Amboy and Dixon girls' teams and boys' teams from those cities.

Mrs. George Ulrich was here Thursday.

Mrs. J. E. Lewis slipped on a sidewalk one day last week and injured herself quite badly. At present she is getting along as well as could be expected.

Mrs. Chas. Buckingham of Rockford called at the Henry Wright home Thursday.

Miss Ruby Holtsapple is spending a few weeks at the J. E. Lewis home on Jefferson avenue.

Miss Louise Wohnke returned to Amboy after a week spent in Chicago, where she studied the millinery styles.

HARMON NEWS NOTES

Charles Parker home south of Harmon, Feb. 27—Clifford and Samuel Allen spent Sunday at the man.

Wm. Stein shelled corn Tuesday and his neighbors helped him draw it to market.

Dena Weldon, the magician, was here Friday night entertaining the Harmonites with sleight of hand tricks. He tried his magic power on some of our young lads but it failed to work. The entertainment was well attended and all were well satisfied.

His impersonations of Buffalo Bill, Duke of Wellington, the old fashioned school master and Bonaparte all were good but that of Theodore Roosevelt was especially fine.

The course of entertainments finished by the above number was excellent and we hope the committee in charge will see that the people have as high class talent as they did this year.

Miss Frances Kugler is spending a few days at the home of Edward Dowd.

Miss Gaynell Talbott has recovered from the measles.

Mr. and Mrs. D. T. Hill were here Wednesday.

The cold weather the first of the week kept a number of pupils away from school.

Rev. Green ate Sunday dinner at the home of Mr. and Mrs. E. L. Compton. On account of the stormy weather he returned to Dixon in the afternoon and no services were held at night.

E. H. Wooster of Sterling was here Tuesday.

Alfred Clatworthy hauled hay from the Conklin farm south of Harmon to his home on Wednesday.

Edward Dowd had a closing out sale Saturday, Feb. 28.

James Scanlan Jr. was here Tuesday.

Messrs. Jansen and wife and their families left for their future home in North Dakota. The people of Harmon township all join in wishing them success in their new field of work.

The play entitled "Above the Clouds," presented by the Harmon Dramatic club recently, was a pleasant surprise. The character delineations were excellent considering that it was done mostly by amateur talent.

Clifford Allen took the part of old mman Gaylord and touched the hearts of the audience as well as amused them by his faithful portrayal of the old country gentleman. The part of Hester Thorne was faithfully portrayed by Miss Frances Kugler. Her part was very difficult and she deserves great credit for the way in which she handled it. Clifford Hill as Chips; Leafy Hettinger as Susy; Joseph Smallwood as Nat Naylor played their parts well and by their good work elicited much applause.

The other members of the cast were Will Hill, who played the part of Alfred Thorpe, a city nabob; Mary Smallwood, representing Grace Ingalls, a young artist; Charles Hill, as Howard Gaylord; Daniel Watkins as Titus Turtle handled their parts well and were the appreciation of the audience. The play was given under the direction of H. C. Eissner, principal of the schools. Mr. Eissner carried the difficult role of "Crazy Phil" and was fortunate in being well supported by William and Charles Hill and Mary Smallwood.

The club extends thanks to all who were present for their patronage and good attention. The young people, after working hard for six weeks previous to putting on the play, certainly deserves a much larger attendance than was present.

Miss Harriet Sheep, who is doing excellent work in the primary room of our schools, received a first grade certificate from Co. Supt. L. W. Miller this week.

Mrs. Will Hill left Friday to spend a few days with her sister, Mrs. Walter Pinkenbinder, in Stockton.

Hartnell and Evans Watkins were here Tuesday.

Sam Elgin of Hamilton was here Tuesday.

Louis Parker was here Thursday.

The Carbaugh school was closed the first of the week because of the illness of Miss Keefer's mother.

Evans Watkins Sr. was here on Thursday.

Joe Bowers of Hamilton was here Thursday.

Mrs. J. E. Keefer, who has been very ill for a few days, is slowly improving.

Samuel and Clifford Allen, Willard and Charles Hill went to Walnut on Tuesday evening.

Mrs. P. Moody of Van Petten is reported to be very ill with measles.

Much corn has been drawn to market recently as a number of the farmers are shelling. They are taking advantage of the good roads.

The melting and freezing of the roads the last few days has made them quite icy in places.

Allen Parker spent a few days in Sterling.

Alfred Clatworthy was here Thursday evening.

The Talbott boys are out of school on account of the measles.

Mr. and Mrs. Alfred Clatworthy are the proud parents of a ten and one-half pound girl, which was born Saturday, Feb. 21. Mother and child are doing nicely.

The Ladies' Aid of the Methodist church will meet Thursday at the home of Mrs. Geo. Smith.

Prin. H. C. Eissner spent Saturday at the home of Mr. and Mrs. D. T. Hill and family.

A. K. Carmichael, representing the American Book company, called on H. C. Eissner Wednesday.

Several of the large boys who have been attending school this winter are leaving to take up spring work on the farm.

There will be more moving this spring than there has been for the past few years.

The Harmon telephones were out

of commission until 9:30 p. m. Sunday.

Monday, Feb. 22, was a legal holiday for the mail carriers, for which they thank Uncle Sam.

Mr. and Mrs. John Kelly of Hamilton were here Friday.

OUCH! ACHING JOINTS, RUB RHEUMATIC PAIN

Rub Rheumatism Away With Small Trial Bottle of Penetrating Old St. Jacobs Oil.

Rheumatism is "pain only."

Not one case in fifty requires internal treatment. Stop drugging!

Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly.

"St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and can not burn the skin.

Linger up! Quit complaining! Get a small trial bottle of "St. Jacobs Oil" from any drug store and in just a moment you'll be free from rheumatic pain, soreness and stiffness.

Don't suffer! Relief and a cure await you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, back ache, sprains and swellings.

George J. Downing went to Chicago this morning to attend the power boat show.

SIXTH YEAR HERE. RUPTURE CURED

Ruptures low down and hard to hold, those following operations, naval ruptures in fleshy women, and all bad cases guaranteed relief or no charge.

No failures, relief for all sufferers. Always reliable. No fake schemes or experimenting.

No knife, no injection or detention from business. I am the only physician in the United States specializing in bad cases of rupture and my methods are entirely different from all others. I do not use drug store trusses or follow methods similar to the advertised mail order treatments. It makes no difference how many trusses or mail treatments have failed you, will prove that my original inventions and 22 years' experience will give relief and comfort at once.

If you prefer to wear a truss and want solid comfort, wear the King Truss of the world.

THE WUNDERTRUSS

Without leg straps, elastic bands or steel springs, guaranteed to hold after all others fail, and you suited before buying.

If you cannot call, write for book and future dates to 136 W. 34th St., New York.

M. H. BROWN, M. D.

New York and Chicago.

Next visit to Dixon—Dixon Inn, Friday, March 6th, 8 a. m. to 2 p. m.

Reading Club
The Reading club will meet on Thursday with Mrs. H. U. Bardwell.

Sunday Dinner.
Mrs. H. U. Bardwell entertained guests at Sunday dinner.

Sunday Luncheon.
Mr. and Mrs. J. M. Batchelder entertained Sunday evening at luncheon.

At Luncheon
Dr. and Mrs. Z. W. Moss entertained friends at luncheon on Sunday.

Entertained
"Wefour" were delightfully entertained last evening at the home of Mrs. Elizabeth B. Martin.

Box Social.
There will be a social at the Stott school on the Pump Factory road Friday evening. A conveyance will leave Rowland's corner at 7. Alice Ackert, teacher.

At Kost Home.
Mrs. C. P. Wood is the guest of Mrs. C. C. Kost. Last week Mrs. Wood entertained Mrs. Kost in Chicago a few days and is now the latter's guest.

At Eells Home.
Miss Carrie Eells, who is at the head of St. Mary's school, Faribault, Minn., is here for a month's visit with her mother, Mrs. Samuel Eells, and sister, Miss Bess.

Visit in Dixon
Mrs. Mert Carpenter and daughter Jane of Chicago arrived in Sterling Friday for a few days visit with her parents, Mr. and Mrs. Gottlieb Elaser. Saturday afternoon they came to Dixon where they were guests over Sunday at the home of Mr. Carpenter's parents.

Parnham-Brandt
The marriage of Miss Edna Parnham, daughter of Mrs. Fannie Parnham of Morrison, and Arthur Brandt youngest son of Mrs. Julius Brandt of near Lyndon, occurred on Thursday afternoon, the ceremony being performed by A. R. Baird, J. P. The couple will reside on the farm of the groom's mother, near Lyndon.

Everybody's Club.
Much interest is being shown in the first party of Everybody's dancing club, to be given at the armory Thursday evening and indications are for a large attendance. The committee will endeavor to make these parties cosmopolitan in every respect with attention to both old and new dances.

MODEL MARRIES A SCION OF THE VANDERBILTS

Considerable interest has been aroused in society circles in New York by the marriage of young Arthur Gwynne, nephew of Mrs. Vanderbilt to Miss Anna Regina Kenna. She was an artists' model; he is the son of a wealthy broker. But the young Mrs. Gwynne is as good looking as the women the young man has met in the society to which he has been accustomed.

The pair slipped off to New Jersey the other day, and after obtaining a license there were married by a Methodist clergyman. The authorities of that state said that twenty-four hours should have elapsed after the issuance of the license, according to the law of New Jersey. Then, again, they found the clerk for Cupid had been told the bride was 21 years old. It developed later she is not more than seventeen. But what was of more consequence to the young woman, her mother insisted on a religious ceremony and the pair had to stand up before a priest.

Supper at People's.
The ladies of the People's church will hold their semi-monthly supper and gathering Wednesday evening at the church, to which all are invited. The scramble supper will be served at 6:30.

Mystic Workers.
The regular meeting of Mystic Workers will be held at 7:30 p. m. Wednesday. After the meeting a hard time party will be held. A nominal fee will be charged to non-members of the order. All Mystics are requested to be present and bring friends.

Note Day of Change.
The Thursday Reading Circle will meet Wednesday at 2:30 instead of Thursday, with Mrs. J. W. Watts. The study topic will be chapters 3, 4 and 5 of U. S. history. The Empire on the Pacific will be another study topic. The program is in charge of Mrs. Richard Cortright.

Penny Carnival.
At the Odd Fellows hall Wednesday and Thursday the ladies of the Rebekahs will hold a penny carnival. Among the attractions are the German Inn, German orchestra, Japanese booth, Gypsy booth and fortune teller, picture gallery, customers' fish pond, bridal pair, Japanese candy booth, suffragettes and music.

Oyster Supper.
The oyster supper at the Woosung school was a decided success, a fine time being enjoyed by all. Miss Ione Parks rendered two instrumental selections and Margaret Sword recited "Taking Exercise." A quilt, pieced by the children during the sewing hour in the past two years, was sold at auction, bringing \$4.85. The swap social part of the program was very amusing.

St. Paul's Ladies' Aid.
The Ladies' Aid society of St. Paul's Lutheran church will meet at the church at 2:30 Thursday, with Mesdames Ruef and Eichenberg as hostesses.

Farewell Party.
Mr. and Mrs. Harry Herbst entertained twelve couples at their home

1516 First street last evening, the occasion being a farewell for Ernest Felkins, who will leave soon for his new home in Iowa, Kas. The house was prettily decorated in pink and white and the guests thoroughly enjoyed an evening spent with dancing and cards, refreshments adding to the pleasure of all.

St. Agnes Guild
The members of St. Agnes Guild will meet Friday with Miss Pankhurst.

To Attend Boat Show
Mr. and Mrs. D. G. Harvey went to Chicago today to attend the boat show.

Will Attend Luncheon
Mesdames Burham, Law, Traber, and Moss are among the Dixon ladies who will attend the luncheon given by Mrs. Wynn in Sterling Thursday.

Tea Club to Have Luncheon
Mrs. C. J. Rosbrook will entertain the members of the Tea club tomorrow with a luncheon.

Returned After Visit
Hon. Henry D. Dement has returned to Wilmette after a visit with his sister, Mrs. Geo. H. Squires and E. C. Parsons.

Boat Show
George Downing, George Howell and Will Schuler are attending the Boat show in Chicago.

At Todd Home
Kenneth Burgess of Lancaster, Wis., spent Sunday at the C. A. Todd home.

Mrs. Wynn Entertains
The officers and chairman of the District Federation of Women clubs will be entertained at Mrs. Wynn's in Sterling Thursday.

Hinrichs-Ellers Wedding
Miss Laura Hinrichs, daughter of Mr. and Mrs. George Hinrichs, was united in marriage last Thursday evening, to John Ellers, son of Mr. and Mrs. Herman Ellers, the ceremony being conducted by Rev. A. W. Oetting at the home of the bride in Hopkins. Mr. and Mrs. Ellers, who both have many friends in Dixon, will be at home after March 15 on a farm in Hopkins.

Surprised Saturday
Saturday evening twenty friends delightfully surprised Bert Ortsgaard at his home, Mrs. Bert Ortsgaard inviting them to help celebrate her husband's birthday anniversary. A happy evening in games was supplemented with a most tempting scramble supper. The guests left many good wishes for the host as well as a number of handsome gifts.

Birthday Party.
Twelve guests were entertained at 6:30 dinner last evening at the home of Mr. and Mrs. Fred Dimick in honor of the birthday anniversary of Miss Dorothy Dimick. The decorations were yellow jonquils and ferns. The affair proved delightful and Miss Dorothy received the good wishes of all for her continued happiness. Earl Miller of California was an out of town guest.

Visiting Daughter.
Mr. and Mrs. C. A. Buchanan of Castalia, Ia., are guests of their daughter, Mrs. A. W. Kramer, in Dixon.

At Nixon Home.
Mrs. H. A. Allen of Streator is a guest of her son, Wm. Nixon, having accompanied him from Streator on a visit, where he went to see his brother, who is in poor health, and whose condition remains about the same.

Meets Thursday
The Dorcas society will meet on Thursday with Mrs. Chas. Thomas.

To Attend Anniversary.
Mrs. Adolph Eichler went to Chicago today where she was joined by her father, Hermann Ganze, who has been in the city for a few days. Together they went to Milwaukee to be guests at the celebration of the 40th wedding anniversary of Mr. and H. Strauss, uncle and aunt of Mrs. Eichler.

Cafeteria Supper at Eldena.
A cafeteria supper will be served at Woodmen hall, Eldena, on Wednesday evening, from 6 to 10 o'clock under the auspices of the K. L. C. E. An excellent program has been arranged, to be given at 8 o'clock. A circular invitation is extended to all

YOU CAN'T EARN MONEY WHEN YOU'RE LAID UP

There are a lot of people in this town who cannot afford to be sick. Perhaps none of you feel that you can, but certainly some of you can't, for as soon as you are sick your wages stop and worry and debts begin to pile up. The sensible thing for you to do, as soon as you feel run-down and worn out, no matter what the cause, is to take something as quick as you can to build up strength and health. Make yourself more comfortable and provide against serious sickness.

We don't believe there is any other medicine made that will do as much towards saving your health and thus helping you to save your money as Rexall Olive Oil Emulsion. It is a medicine that gets right at the trouble and relieves it by toning the nerves, enriching the blood, and giving new strength and health to the whole body. It doesn't do this by means of alcohol or habit-forming drugs, because it contains none. Its strength and health giving power is due to pure Olive Oil and the Hypophosphites, long endorsed by successful physicians, the one for its food value, the other for its tonic value. Here, for the first time, they are combined, and the result is a real nerve, blood and bodybuilding medicine—a real strengthener that we are proud to tell you about. You don't need to hesitate in using it, because if it doesn't do all we say it will and satisfy you in every way, it will cost you nothing. If it doesn't make you strong and well again, come back and get your money. It will be given to you without word or question. Sold only at the more than 7,000 Rexall Stores, and in this town only by us. \$1.00, Campbell & Son, 105 First St.

ARGUMENTS ON NATIONAL SUFFRAGE LAW TODAY

(By the Associated Press)
Washington, Mich. 3.—Arguments for and against the proposed constitutional amendments giving women of the country right to vote were today made before the house committee by some of the most prominent speakers in the United States.

DECORATE SODA GRILL
The Soda Grill is in the hands of painters and paper hangers who will renovate it thoroughly preparatory to the summer season.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(In Tablet or Liquid Form)
Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Send 31 one-cent stamps for Dr. Pierce's Common Sense Medical Adviser—1008 pages—worth \$2. Always handy in case of family illness.

Address: Dr. J. C. PIERCE, Buffalo, N. Y.

SCENE FROM EXCUSE ME, AT OPERA HOUSE THURSDAY NIGHT.

THREATEN LIFE OF JUDGE PETIT

(By the Associated Press)
Chicago, Mich. 3.—Judge Petit, presiding judge in the hearing of the Elks murder trial, today received a letter from an unknown source which predicted that he would be assassinated in case Elks is found guilty of murder.

METHODIST BISHOP IS DEAD

(By The Associated Press)
Orange, N. J., Mich. 3.—Bishop Bowman, noted Methodist churchman, is dead here at the age of 97 years.

NOTICE OF PUBLICATION— CHANCERY.

State of Illinois, Lee County, ss.
In the Circuit Court, April Term, A. D. 1914.

Abalino C. Bardwell vs. Edward Keenan, Michael Keenan, James Keenan, John Keenan, Mary Lengel, Louisa Stanley and Jennie Keenan, heirs at law of Michael Keenan and Mary Keenan deceased.—3919 Chancery.

Affidavit of non-residence of John Keenan impleaded with the other defendants above named having been filed in the Clerk's office of the Circuit Court of Lee County, notice is therefore hereby given to the said non-resident defendants that the Complainant filed his bill of complaint in said Court on the Chancery side thereof, on the 23rd day of February, A. D. 1914, and that thereupon a Summons issued out of said Court, returnable on the Second Monday of the month of April, A. D. 1914, as is by law required; which cause is now pending and undetermined in said Court.

BATTLE STORM TO FILE TAX DATA

New Yorkers Plow Through
Drifts to the Custom
House.

LEVY PUT AT \$10,000,000

Chicagoans to Pay \$8,000,000—No Official Number of Individuals Who Are to Give Money to U. S.
Available for 48 Hours.

New York, March 3.—Hundreds of persons climbed mountainous snowbanks in lower Broadway in order to get into the United States customs-house and file their income tax reports. It was estimated that the government would collect \$10,000,000 from New Yorkers.

Chicagoans to Pay \$8,000,000.
Chicago, March 3.—Thousands of income tax payers crowded the internal revenue collector's office in the federal building here yesterday. It was their last opportunity to make returns under the law without paying a penalty.

A crowd of worried and perplexed men and women clamored about the busy clerks, to whom they appealed for help and information. The office was open until midnight so that the late comers might be given opportunity to file.

3,000 Returns Are Made.
At that hour more than 3,000 returns had been received, bringing the total number of individual schedules up to nearly 28,000. The number of corporation schedules filed passed the 15,000 mark.

The figures prepared by Mr. Fitch indicate that the government will receive \$8,000,000 from the collection of the tax in the northern district of Illinois.

\$19,000,000 in Revenue.
M. Fitch estimated that the total income from all sources of internal revenue from the Chicago district for the first ten months of 1913 would be approximately \$19,000,000.

Notices of the amount of the tax assessments will be sent out before June 1, according to Mr. Fitch. They are payable on or before June 30. Forgetful ones and would-be tax dodgers will be taken care of in the meantime. Persons who have neglected to send in their returns or who have made false returns are subject to a penalty of 50 or 100 per cent. of the tax. Taxes unpaid after June 30 will be subject to a penalty of five per cent. Collectors may grant a 30-days' extension if a taxpayer is ill or absent from the city. Collector Fitch said that the largest schedule filed at the Chicago office was in excess of \$750,000.

Income Tax to Reach \$50,000,000.
Washington, March 3.—No official count of the number of individuals who are to pay the income tax will be available for at least 48 hours. It has been estimated that the income tax would bring in about \$50,000,000, and that about 400,000 individuals would pay.

Bay State Levy Near \$2,250,000.
Boston, March 3.—Massachusetts will contribute about \$2,250,000 to the federal income tax, it was unofficially estimated at midnight when the time limit on return expired. It was estimated that about 16,000 persons had paid a tax. Several thousand others have secured extensions because of illness or absence from the state.

Missouri Corporations Negligent.
St. Louis, March 3.—More than 1,000 corporations in the St. Louis district, which includes all of eastern Missouri, had failed to make their income tax returns when the internal revenue office closed here at midnight. Those whose tax return was not mailed will be penalized, local federal authorities announced.

DEFENDS SYSTEM AT MINE

General Manager of Calumet at Federal Inquiry.

Houghton, Mich., March 3.—Competition compels the use of the one-man drill to which strikers object, and the employment of every facility for reducing the cost of production of copper mined in this district, James MacNaughton, general manager of the Calumet & Hecla company, told the congressional investigating committee. He asserted that it is necessary to go deeper and deeper for rock, and that, even then, the quality of the rock has deteriorated so that it yields only about twenty pounds of copper a ton, against 62 pounds in the Montana district and 74 in Arizona.

MacNaughton said he could imagine a condition such as described by a striker who testified that if he made much money on one contract he was given less favorable terms on the next.
"There are some 750 or 800 mine bosses," he said. "Some of them might be arbitrary and dictatorial, and some might not be square with the men. The company does not countenance such treatment."

Tom Mann to Rouse Africa.
London, March 3.—Tom Mann, British labor leader, who has been at the head of many strikes, will sail for South Africa Saturday to organize agitation in retaliation for the expulsion of South African labor leaders after the recent strike.

MARCH 3 1914

WE GET JUST WHAT WE PAY FOR.

If we are to have a model city, which is the earnest desire of all of us, we will have to loosen the purse strings. No one is going to come to Dixon and lay miles of brick pavements, build new bridges and give us the many things that make up the perfect whole just out of the kindness of their hearts. If you own a piece of property, Mr. Dixonite, no one is going to put in improvements around it that will appreciate its value several hundred dollars just because you are a nice fellow and have a big family. No, you will get just as much done for you as you are willing to pay for, and the property owner who is unwilling to pay for his share of improvements, well, he shouldn't enjoy them.

There is a certain class of people in every community who are absolutely and unreasonably against any improvement that may raise taxes. They will never vote for a single thing that means progress, if it costs them even a few pennies in taxation. Those of our residents who belong in this category should have a certain part of the city marked out for them all to live in. This part should have no sewers, no city water, no electric light or gas, no roads but mud roads and no sidewalks. They should have no telephones and no mail carriers. The milk routes should miss them and the grocery deliveries should forget them. A weekly newspaper would be speedy enough for them, and they should come after it themselves. When they die they should go to Sterling. They should never be allowed to even claim that they live in Dixon.

The fellow who whines and growls against taxes for public improvements that are needed is merely grease on the rails that lead to progress, and enough of his like will bring the car to a standstill or slide it back down the hill, because of its slipping wheels. What should we do with him? The law would look with displeasure on the outright killing of him.

It is a serious problem. It is in this state, at least, considered a violation of the law to make away with one of these gentlemen, no matter how obnoxious he may be or how great his activities in blocking the wheels of progress. Can't the law be amended? How would an "open season" for certain months each year work? Or even a bounty might be money well spent in exterminating the pest.

Now, we hope especially that the reverse-English spendthrifts and "quicker-than-the-eye" philanthropists whose most frequent public appearances are made for the purpose of objecting to the improvement schemes that the board of local improvements maps out, will read this little message to them. We don't expect to hear any objections to them. That would too obviously identify them. They will, if they are alone when they read it, snort and wriggle their chin whiskers and wonder when their subscriptions run out so that they can take another paper without losing any credit that is coming to them on what they have paid on this one, and if there is anyone else around when it is read, they will guffaw and chortle and be positive that it means Gotrocks Hardflint up the street who is always claiming that he must borrow the money to pay this year's taxes.

EXPRESS AND PARCEL POST.

In a year's time the parcel post has made wonderful strides. It gave the public the first real opportunity to send parcels at a reasonable cost. While the success of the parcel post was underrated at first by the express companies, it has proved to them that unless they could meet Uncle Sam on equal terms Uncle Sam would get the cream of the business, especially that handled in the first few zones.

The express companies will not go out of business, however, on account of the parcel post. Partly because competition has forced them to it and partly because the interstate commerce commission has reduced their rates and laid down rules which they must follow, the express companies are going to compete with the parcel post for the business. The lower and uniform rates went into effect the first of this month.

As an aid to the express companies in helping them to meet the competition of the parcel post several of them propose to bring the producer and the consumer closer together. They will eliminate to a certain extent the services of the middleman, one of the chief causes for the great difference in price received by the country housewife for her butter and eggs and the price that is paid by the city housewife for the same produce.

Because of these rate reductions the express companies in the larger cities are beginning to retrench. They are weeding out clerks and employes here and there. Different companies are being housed in the same buildings to reduce the cost of rent.

Temporarily this will work a hardship on those thrown out of employment. Their loss, however, will more than be made up by the patrons of the express companies through the lower rates.

In the past the express companies were allowed to make exorbitant profits and pay unreasonable dividends. The advent of the parcel post has caused that day to pass and now the parcel post and the express companies are settling down in a competitive test for the country's business. It looks as though the people who patronize the express companies or the parcel post are getting something in return for their money.

ZERO IN SOMETHING TO WORRY ABOUT.

It will cost as much as is taken in to hire enough clerks to decipher the income tax reports. However, if nothing ever bothers us any more than figuring out the income tax, we will live a long and happy life. Some fellows have been busy as a man killing snakes the past few days, trying to figure it so that their income comes down below the exemption mark. Most fellows, however, are just that busy every season in the year, trying to stretch their income over to the first of the next month.

We can't just see why anyone should go into fits because of the size of his income. It would seem as though anyone who had such a large income that he had to pay a big tax, would welcome a place where some of the superfluous money could be used to advantage.

Delay
By WALT MASON

"Delays," said Dad, "are dangerous, and apt to work much harm." 'Twas in the days when, grangerous, we lived upon the farm. So we were always hurrying to get things done—afternoons, the plowing and the currying, the harvesting of prunes. We did our work ker-whoopingly, and gained the silver buck, while other farmers droopingly complained of evil luck. When storms came up a-thundering we did not care a darn; they never caught us blundering—our hay was in the barn; when rivers rose amazingly, overflowing banks and bed, we viewed the blamed things brazenly—our wood was in the shed. The elements might clammyly spread snow throughout the land, they could not catch our family without some coal on hand. The lessons learned thus youthfully have served me all my days, and I can tell you truthfully that "Up and Do It" pays. Delays are surely ruinous; let's do things on the jump, or Fate will soon be shootin' us toward the blawsted dump.

Dixon, Ill.

HIGH SCHOOL NOTES

(By Russell Byers)

Monday—Prof. Anderson gave his usual Monday morning speech.

Tuesday—Music. We had a few selections on the Victrola.

Wednesday—The Juniors had pictures taken.

Thursday—15 boys and 2 girls were called to the office at 9 a. m., for whispering.

Friday—Literary societies met. Miss Mary Morrison entertained the following Monday night with a party:—Misses E. Owens, H. Bacharach, J. Altman, H. McKenney, R. Dement, C. Dement, C. Armington, and Messrs. B. Brooks, E. Cahill, E. Haley, R. Byers, M. Dollahan and S. Griffith. The evening was spent in dancing, the music being furnished by a Victrola. A lap supper was served at a late hour. All wished Mary many thanks for being such a delightful entertainer.

Miss Florence Vaile entertained about twenty seniors with a party at her home Monday night. The evening was spent in playing cards and music. Dainty refreshments were served by the hostess' mother and all departed at a late hour. Miss Vaile proved to be a very excellent entertainer.

If anyone is fond of cornstarch pudding please notify Mahlon Dollaha and Helen McKenney. Red is especially fond of the pudding and can tell you a very interesting story concerning it.

The freshmen class had their pictures taken Tuesday after school at the Hintz studio. The picture will appear in the senior's annual. We feel sorry for the class that has not had their picture taken yet for the belief is that the freshmen broke the

Miss Ruth Matheius visited school Tuesday with Ona Spielman. Poor B. B. was in hot water all afternoon for fear a certain little girl would find out he knew here.

Poor, poor seniors are very quiet and bashful at present. Won't your mammas let you out any more evenings and have a good time?

A little girl asked the editor Tuesday afternoon in school if he had the book which told about 'movie' pictures.

Now Rosana whom we all know has a cute kitten white as snow. She is so proud of her kitten small should she lose it, oh how she'd bawl.

She tells Erma of her cat every day. But to her Erma no attention does pay. Then off goes Rosy with a frown, then a snifle, And says, "I'll show you the cat after while."

Then Byron with a dog appears on the scene, And Rosy with her cat peeks from behind a screen. Byron invites her for a walk, Then Rosy at this invitation does balk.

Miss Georgia Marshall delightfully entertained the members of the junior class who participated in their play, "Her Gloves." The evening was spent with games and music. A most delicious supper was served by the hostess' mother and all departed at a late hour, and Miss Marshall proved to be an excellent entertainer.

City In Brief

H. A. Roe went east this morning.

Earl Beler went east this morning.

A. W. Kramer is in New York on business for a few weeks.

Adolph Haegle of Freeport is visiting his daughter, Mrs. J. L. Farley of this city.

George Spencer of the I. N. U. is visiting in Chicago.

Gus Weiser and family have moved to Amboy, much to the regret of their Dixon friends.

Miss Margaret Cunningham of Nelson has enrolled for three years' training course at the Agatha hospital, Clinton, Ia.

Mrs. Thomas Curran, formerly of Dixon, has returned from Monroe, Wis., to make her future home here.

Ed Dysart of Franklin Grove was here today.

Harold Boughton of New York City is a guest at the DeWitt Dauntler home.

Mrs. B. B. Gill of Galion, O., is a guest of Mrs. Theron Cumins.

K. F. Burgess of Lancaster, Wis., spent Sunday at the C. A. Todd home.

Miss Pearl Rizner spent Monday in Freeport.

M. M. Baer of Route 3 was a Dixon visitor today. He has recently moved from Sterling to his present location.

Chas. Krug and Will Schafer of Ashton were here today.

Dr. R. L. Baird and Dr. W. C. McWethy have moved their offices to the Dixon National Bank building, Room 22, second floor. 5216

Rev. Fisher's business men's bible class will meet this evening at 6:04. Lunch will be served and study will begin at 6:30.

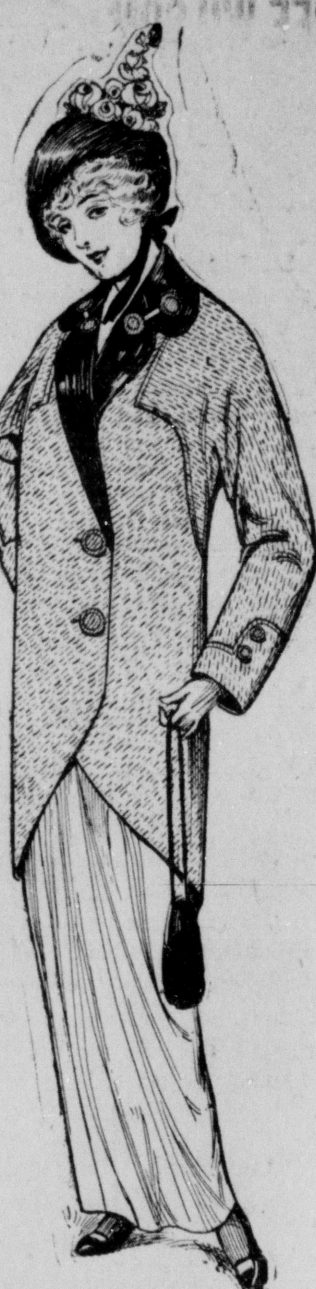

Why He Hurried Away.

A supposedly confirmed old bachelor had lately fallen deeply in love and might be seen almost any day passing and repassing the house of his lady love. One day he picked up a small thimble, which had suddenly rolled down the steps. He stood a while meditating on the beauty of its owner and looking at the thimble lovingly. Then he pressed it to his lips, saying: "Oh, that it were the fair cheek of the wearer!" As he finished he looked upward, hoping for a glimpse of her, but instead, from the second-story window a big negro woman looked out. "Boss," she said, "please to toss up dat fumble of mine. I wants to go on sewing."

Scott Cooper Hates Himself.

Scott Cooper, who has become so identified with the bow-wow roles like his village tyrant in "The Road to Happiness," has a habit of going over his lines to himself in his dressing-room after each performance. The other evening a visitor back stage heard the actor mumbling to himself. "I wonder," said he, "why the man talks to himself." From the dressing-room came the voice of Cooper: "The man talks to himself for two reasons, one because he likes to hear a smart man talk, and the other because he likes to talk to a smart man."

A. L. GEISENHEIMER & CO.

Jenny Lind in Private.

In January, 1866, Mrs. Charles Moulton met Jenny Lind in France, and tells her experience in her book "In the Courts of Memory." She describes the singer as "neither handsome nor distinguished looking; in fact, quite the contrary; plain features, a pert nose, shallow skin and very yellow hair." Jenny Lind asked Mrs. Moulton to visit her the following day, and she did so. "I wish you could have seen her! She was dressed in a white brocade trimmed with a piece of red silk around the bottom, a red, blousy waist covered with gold beads sewed fantastically over it, perhaps odds and ends of old finery, and gold shoes! Just fancy, at 11 o'clock in the morning! We talked music. She hated Verdi and all he has made; she hated Rossini and all he had made; she hated the French; she hated the Americans; she abhorred the very name of Barnum, who, she said, 'exhibited me just as he did the big giant or any other of his monstrosities.' But, said I, 'you must not forget how you were idolized and appreciated in America. Even as a child I can remember how they worshiped Jenny Lind.' 'Worshiped or not,' she answered sharply, 'I was nothing more than a show in a showman's hands; I can never forget it.'"

Mother's Second Thought.

Small Daughter—"It's most school time, and I've mislaid my geography." Cultured Mother—"Well, tell me what the lesson is about and I'll write out the answer for you to learn." Small Daughter—"The lakes of Africa." Cultured Mother—"Um—er—if you've mislaid your geography, you careless child, you can just hunt till you find it."

John Deere Model "B" Disc Harrow

A high grade Spring Pressure, Flexible Harrow

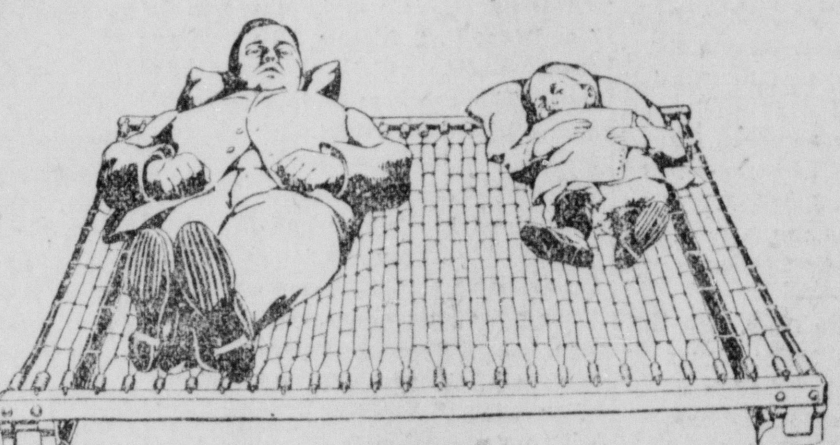

The Main Frame is made in one piece from high Carbon Steel. The Gangs pivot directly from the ends without the addition of any links or extra couplings whatever. A third lever with powerful spring is provided by means of which the driver can easily lower or raise the gangs at center so as to either cut out dead furrows or to cultivate over ridges or back furrows without burying the harrow in the center.

Each gang of the model "B" works independently so that only the part passing over an obstruction is raised out of the ground. Furnished in 4 to 10 ft. width, with or without tongue truck.

THE DIFFERENCE IN WEIGHT

Does not affect the Sleeping Comfort on a "Way Sagless" Bed Spring The Strong Steel Frame—The Strong Hollow Cable Webbing—The Alternating Link—and the Six Strand Hollow Cable Band at the Sides of the Spring—The Strong Resilient Helical Coil Springs at the Cable ends all go to make the "Way Sagless" the Last Word in sleeping Comfort—and they are

GUARANTEED FOR 25 YEARS

by the Manufacturer not to sag or buckle—the very modest price they cost make the Way Sagless the most economical Bed Spring on the American Market.

KEYES A HRENS OGDEN CO.

STEWART NEWS ITEMS

Stewart, Feb. 25.—Miss Dorothy Barnett and Miss Vivian Stiles attended the Eastern Star meeting at Rochelle Thursday evening.

Mrs. Harry Wright is spending a few days with her parents in Rochelle.

Mr. and Mrs. C. T. Beitel made a business trip to Chicago Saturday.

Mrs. William Herman whose home is two miles west of Stewart died at the Aurora hospital Friday. Funeral and burial took place at Rochelle Monday.

Miss Lucile Foster and Miss Tomena Hiland who are attending Normal at DeKalb, spent Saturday and Sunday here with their parents.

Mr. and Mrs. Thomas Richolson of Davis Junction visited here over Sunday with friends.

Mrs. Hager and children are visiting friends in Ashton.

A number from here went to Rochelle Monday to attend the funerals of Mrs. Herman and M. Haley.

Mr. and Mrs. Samuel Whetston took their daughter, Miss Gladys, to Florida last week hoping the warm climate would benefit her health.

The literary program Friday evening will consist of vocal and instrumental solos and Mrs. Graham will give a number of readings. Admittance fifteen cents.

Mrs. L. A. Herrick is spending a few days with Willow Creek friends.

Mrs. Perry Bietel entertained the Rochelle and Stewart choir singers Tuesday evening.

SAYES CARRANZA GAVE ORDER FOR THE HALT

VILLA SAYS BENTON INVESTIGATION WAS STOPPED AT CARRANZA'S ORDERS.

(By the Associated Press)

Chihuahua, Mex., Feb. 3.—Gen. Villa today stated that the order to halt the Benton investigation commission came from Gen. Carranza, not himself, and that hereafter all matters of foreign relations and diplomatic questions will be in Carranza's hands.

LOADED FOR DOGS.

Utility Officer Duffy vows that it will not be necessary for him to exhaust much ammunition to dispatch such dogs as he will be called upon to kill the coming summer as was the case last season, for he has added to his arsenal one 38 calibre Colt "cannon" guaranteed to shoot straight if aimed correctly, and is guaranteed to kill any dog, provided of course, the dog will accommodate itself in front of it.

CARD OF THANKS.

We wish to express our thanks to our neighbors and friends who extended us help and sympathy and also for the many beautiful floral offerings at the time of the death of our son and brother, George Blass. Mr. and Mrs. Leonard Blass and Family, Mrs. George Blass.

CARDEN TO SEE WILSON

Britain's Minister Stops at Capital on Way Home.

Declares He Didn't Say That England Was Ready to Deal With Carranza.

Washington, March 3.—Sir Lionel Carden, British minister to Mexico, arrived in Washington at midnight and was taken directly to the British embassy. He made it a special request that the statements attributed to him at New Orleans be characterized as "pure inventions." That interview made Sir Lionel say Great Britain was ready and willing to deal with Carranza direct.

"I am anxious that the newspapers publish this denial," he said, "because it would be entire presumption on my part to forecast what the British government would do in this delicate matter."

"I have nothing to say of Mexican affairs. Before leaving Mexico City I heard reports that General Huerta might lead his army in person in defense of Torreón and I think it probable that he will do so."

Sir Lionel Carden will see Secretary of State Bryan and President Wilson today and will leave tonight for New York whence he sails for London. He will return to Mexico City in the late spring.

ALIEN EGGS HIT "HIGH COST"

Big Imports Cut Quotations, Says Chicago Dealer at Convention.

Kansas City, Mo., March 3.—Foreign laid eggs have dealt the high cost of living a real blow, according to dealers here attending the sixth annual meeting of the Missouri Carol Egg Shippers' association.

"Never again will eggs be retailed in this country at unreasonable prices," said F. M. Heggie of Chicago. "Thousands of cases of eggs are coming into New York from Siberia, Austria and Russia proper."

"Siberia alone exports 10,000,000 cases of 30 dozen eggs each year. Importation of Chinese eggs on the Pacific coast is a fact. There is real competition for the home laid eggs. The result is a lower average of prices."

UNIONIST'S HOME BLOWN UP

Chicagoan Lays It to Refusal to "Deliver" Organization.

Chicago, March 3.—A dynamite bomb was exploded under the rear porch of the home of Simon J. Gorman of 3149 Fillmore street, who is president of the Cook County Horse-shoers' union. Mrs. Gorman and her two-year-old son, Arnold, who were alone in the house, were slightly bruised. The explosion tore off the back porch, shattered the rear door, and broke every pane of glass in the two-story building. Mr. Gorman attributed the explosion to persons who, he says, recently tried to bribe him with \$5,000 to deliver his union into an affiliation with the Master Horse-shoers' Protective association.

RULING HITS WATCH FIRM

Supreme Court Says Company Cannot Fix Prices.

Washington, March 3.—The Supreme court of the United States dismissed the appeal of the Waltham Watch company from a decision of the second federal circuit court of appeals in favor of Charles A. Keene, a New York jeweler, when the company sued for selling Waltham watches below the regular resale prices fixed by contract agreement.

The Waltham company sued to enjoin Keene from violating the fixed price agreement and for an accounting and damages.

The decision of the high court is regarded as another blow at resale price fixing.

RAY LOSES IN LITIGATION

Army Officer Defeated in Suit to Promote Him.

Washington, March 3.—Maj. Beecher B. Ray of the quartermaster's corps of the army, formerly a member of the pay corps, received a setback in his efforts to compel the secretary of war to send his nomination to the senate as a lieutenant colonel to fill an existing vacancy. The court of appeals of the District of Columbia upheld the secretary of war in jumping another officer over his head. President Taft nominated Major Ray for promotion to the next higher grade, but the senate took no action on the case.

TO ACT ON SUFFRAGE

Resolution Wins in Upper House by Vote of 47 to 14.

Washington, March 3.—By a vote of 14 to 47, the senate decided to take up for immediate consideration the senate resolution for a constitutional amendment for woman's suffrage.

The vote was taken on Senator Reed's motion to lay on the table Senator Ashurst's motion to immediately proceed with the discussion of the resolution.

Four Children Die in Flames.

Shreveport, La., March 3.—The death of Lillian Bass, four years old, brought the death list up to four, as a result of the fire which destroyed three cottages. The three other dead were small children.

Dramatic Notes

FAMILY THEATRE

The Family has a fine character act in Harry Shaw, Scotch comedian. His dialect is perfect and his Scotch songs a delight. McDonald & Mason have amusing songs and comedy patter. Pictures tonight: Current Events showing scenes in New York and other interesting features. The management announces the engagement for the last half of the week of LeVere & Palmer, Dixon favorites.

WITHIN THE LAW.

Miss Josephine Ross' wrap which she will wear in the third act of Within the Law, Veiller's play which comes to the opera house tonight, is an example of the new fad for temperamental garments being stimulated by the Parisian couturiers. This charming evening coat has a drapery suggesting the Poiret hip-girdle. The wrap has a scarf attachment to be dropped over the front to form graceful reverie or tossed over the shoulder, the tassel hanging below the waistline at the back. The garment is full of dramatic suggestion and lends itself well to the part played by the actress in this stirring drama.

PRINCESS THEATRE

Wednesday night the Princess will show The Return of Helen Redmond in two reels. Neil Forrester marries Helen against his brother's wishes. Neil is a gay young clubman and Helen is a chorus girl whose ruling passion is excitement and novelty. Domestic life palls upon her and when her little girl, Marjorie, is born she returns to the old life. In the remainder of the story we see how she fits herself to be the mother of her daughter and at last she and her husband are happily reunited.

CAMPAIN FOR CLEANLINESS

At Urbana, a number of the students of U. of I. are assisting in the street cleaning campaign being waged to make the city neat. The Chicago Record Herald of today gives a picture of some of the young men, so engaged. Dixon relatives recognized the likeness of Paul Mossholder and Charles Anderson in the foreground.

SAYES COMMISSION WILL NOT BE SENT

MEMBER OF BENTON COMMISSION SAYS INVESTIGATION IS NOW USELESS.

(By the Associated Press)

El Paso, Tex., Feb. 3.—A member of the Benton investigation commission sent by the U. S. and Great Britain, expressed his opinion today, unofficially, that the commission will never go to Chihuahua. He is of the opinion that the body is by now in such condition that the wounds are obliterated.

METEOROLOGY

By Alfred B. Collette

The Study of Atmospheric Phenomena and Its Effect on Weather Conditions.

(Continued from last issue)

A Wrong Impression.

The impression prevails that because the weather bureau is maintained by the federal government it must represent the highest efficiency. The weather bureau and its activities relates to things of the future and therefore uncertainties and the fact that its forecasts bear the government stamp does not in the least enhance their value. Taking everything into consideration the weather bureau cannot, under existing conditions, improve its service to the individual. If we are to depend entirely upon its service for our weather forecasts its stations must be increased to not less than a thousand. It now costs almost two million dollars yearly to maintain its service and the increase the number of stations means a proportionate increase in cost.

As it is now conducted the weather bureau strives to maintain a monopoly of the knowledge of weather forecasting. Through its policy of secrecy it has successfully kept a large proportion of the population in ignorance of knowledge pertaining to weather which should be common knowledge. It is true that it publishes a daily weather map which is very interesting to those who understand it. Of those who see this map there is perhaps not one percent who take it for anything else than some sort of a puzzle. It contains a brief explanation which is not sufficient to those who are not familiar with the study of meteorology.

It is therefore the purpose of this paper in inaugurating this meteorological service giving its readers local meteorological observations so that the individual may learn to understand their significance and relation to future weather conditions. The following will explain briefly the function of the barometer, an instrument with which most of our readers are unfamiliar. This explanation together with the three readings of this instrument taken locally of the atmosphere and published in the daily meteorological record will soon enable everyone to be his own weather forecaster.

THE ATMOSPHERE.

The atmosphere is an elastic gas enveloping the earth to a height variously estimated at from 50 to 150 miles. By means of the gradual fall of the barometer's mercurial column and the refraction of light its height seems to extend about 80 miles. By observation of meteoric bodies which become luminous shortly after striking the atmosphere it would seem that its height is about 150 miles. This height, however, has no material bearing on the study of meteorology. In composition the atmosphere is principally a mixture of oxygen and nitrogen gases, a small proportion of carbon dioxide, and a very variable amount of watery vapor. It expands when heated and contracts when cooled and has both weight and pressure.

The atmosphere is really an ocean of air at the bottom of which we human beings crawl about. It has currents by which it constantly circulates, and these have great force. Its weight gives it pressure which is greatest at the earth's surface because each succeeding layer adds its weight to those below it so that in quantity half of the earth's atmosphere is confined to the first three and a half miles above the surface of the earth the upper air becoming lighter and lighter until the upper limits of the atmosphere have been reached.

It is to the circulation of the at-

atmosphere that we owe our existence, or without that movement, change or stir, life would be impossible.

This circulation is caused by the disturbance of its equilibrium by heat. The warm air from the Tropics ascends and flows towards the Poles, and old air from the Poles flows towards the Tropics to take the place of the warm air. This movement is largely caused by the rotation of the earth on its axis. Since the distribution constantly varies currents being formed, which seek but never accomplish the restoration of the balance.

(Continued in next issue.)

TO GIVE PLAY.

The boys of the Y. M. C. A. are arranging to give an exhibition at the opera house the latter part of April to mark the closing of the season's work of the gym classes. The play, "The Upper Trail," has been written by a boy's secretary and shows the boy's life in the Y. work, together with the boy scouts' activities. Gymnastic exhibitions, wrestling and other physical work taught in the boys' department will be introduced.

U. S. A. OFFICER HERE APR. 3.

The annual inspection of Co. G by a United States army officer will take place April 3, according to information received by Capt. Cushman, and announced to the company members at the weekly drill last evening. The company is in good condition, with every member taking an active interest and the officers expect to have the organization in excellent shape by that time.

SCENE FROM WITHIN THE LAW, TO BE PRESENTED AT THE OPERA HOUSE TONIGHT.

Keeps Your Stove "Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish one-fourth as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE ONE QUALITY

Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, fenders and stove pipes bright and free from rusting by using Black Silk Air-Drying Enamel. It is the best for each kind of enamel.

Use Black Silk Metal Polish for silver, ware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It is no equal for use on automobiles.

Black Silk Stove Polish Works

"Faking" Hotel Bills.

An under clerk in a big New York hotel was discharged for one of the most extraordinary reasons that ever put a hotel clerk out of a job. He was detected in making out fake bills, and selling them to people who wished to give the impression that they had been guests of the house. "I found plenty of customers, too," he confessed when cornered. "A friend of mine who makes the rounds of cheap hotels drummed up trade for me on shares. He picked out people who couldn't afford to stop at our house, but would like to make everybody back home think they had been here. They were willing to pay for something to back up their assertion, and I helped them out by selling receipted bills."

Parisian Street Barbers.

The French capital, like that of China, has its street barbers. In Paris the perambulating tonsorialists carry a little box containing the usual outfit of their calling. Their chief patrons are laboring men. The street barber of Paris usually places his customer upon the banks of the Seine or in some spot aside from the crowd, covers his knees with a newspaper, and proceeds to work. For only one sou he will shave a man, cut his hair and generally impart to him a more or less smart appearance. These barbers are said to make quite a respectable sum even at the small fee they charge.

Answered for Himself.

It is told of Charles Lamb that one afternoon, returning from a dinner party, having taken a seat in a crowded omnibus, a stout gentleman subsequently looked in, and politely asked, "All full inside?" "I don't know how it may be with the other passengers," answered Lamb, "but that last piece of oyster pie did the business for me."

WEALTH OF HAIR

Parisian Sage Makes Thin, Lifeless Hair Soft and Abundant.

Beautiful hair, fluffy, lustrous, abundant and free from dandruff, is one of woman's greatest charms—it's her main delight—yet so many of the fair sex have streaked, thin and lifeless hair, and think there is no remedy. Beautiful hair is largely a matter of attention. Parisian Sage frequently applied and well rubbed into the scalp works wonders. Try it today, and you will be surprised with the result—not only will the hair be come abundant, soft, fluffy, radiant with life, but really doubly beautiful.

Parisian Sage supplies hair and scalp needs. It surely removes dandruff with one application stops itching head and cleanses the hair of all dirt and excessive oil.

All drug and toilet counters sell Parisian Sage in fifty cent bottles. Look for the trade mark—"The Girl with the Auburn Hair." Try at least one bottle from Rowland Bros. They will refund the money if you are not satisfied.

Journey Among the Ayrshire Cattle Breeders of Scotland

By E. M. Clark, Assistant in Dairy Husbandry, University of Illinois.

IF ONE has a tender place in his heart for fine sleek cows, gently rolling meadows, and the quiet brogue of a foreign folk, he should visit Scotland. On the Scotch homestead is found that atmosphere of stability and contentment which makes an observer glad to be alive to the full beauties of the world—and to be a farmer.

While visiting the dairy school in Kilmarnock, Professor Drummond gave me a list of prominent breeders of Ayrshire cattle. After traveling a short distance by rail to the small village of Mauchline, my companion and I secured the services of a dog-cart, pony and driver. It was very amusing and interesting to listen to our Scotch horseman. Upon being asked how far it was to our next stop he answered in his broad dialect: "Oh, just about ten minutes' ride now. We have to cross a wee brig, then pull up a wee stiff of brae, then we are there."

After pulling up the "wee brae" we arrived at the Wallace brothers' farm and were received with many friendly hand claps, after which the older of the two brothers proceeded to show us the place. This farm, as is the case of most Scotch homesteads, is not owned by the operators. The father of these two young men had been a tenant and live stock breeder on the same place for many years. There is

Country Scene in Scotland.

none of that unrest among the tenants which cause them to change farms every year or so. Right here we learn the value of the long-time lease, both to the tenant and the landlord. The land is leased for fifteen-year periods and the tenants not only live on their places during the full period of their leases, but it is very common to find the same family of tenants living year after year, generation after generation on the same farm. The natural result of such a practice is that the farms are run as factories rather than mines; the latter being an all too common procedure in the American corn belt.

The arrangement of Mr. Wallace's buildings being typical of the Scotch farmstead in Ayrshire, a brief description of this place will suffice. Four stone buildings, roofed with red tile, and built in the form of a rectangle about an open court, provide shelter not alone for the farmer, but for his stock, hay and machinery as well.

How to Guard Against Danger of Receiving Electrical Shocks

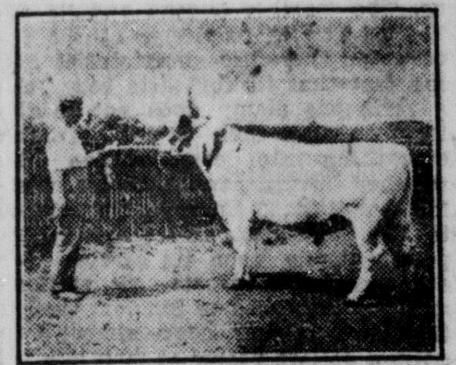

By I. W. Fisk, Associate in Electrical Engineering, University of Chicago.

DURING the winter months the country in general is more or less subject to ice and sleet storms, and it is the common experience of all that during this period telephone and electric power service is not of the best, although the latter may not generally be affected as is often the case with telephone circuits. Accompanying this disagreeable condition there is a certain element of danger not only to the general public, but to all who come in contact with telephones, electric lights or any apparatus connected to power circuits. It is the purpose of this article to explain briefly wherein this danger lies.

Before describing how it is possible to receive a dangerous shock from electric circuits a short explanation of the flow of electrical currents will be given. In general, current is generated at the power house and flows from the machines through a wire or wires mounted on poles. The wire is bound to a glass or porcelain insulator, which prevents the current from flowing down the pole to the ground, the insulator in turn being fastened to the pole or cross arm mounted at the top of the pole. Now it is evident that if the current passes out of the power house over this wire or system of wires there must be a return wire which completes the circuit; otherwise there could be no flow of current. From the above, the following condition is evident: Current is generated at the station, passes out over a wire, flows through the electrical apparatus connected to the wire (as for instance an electric lamp) and returns to the generator through the second or return wire. The most serious condition, and the one which produces the greatest danger to life, is due to the fact that the earth is a good conductor of electricity, current flowing as readily in the earth as through a copper wire. Suppose a return conductor mounted on a pole becomes loaded with ice until it can no longer stand the strain; the result is broken wire, and this slide of

The house forms one side of the square while the dairy barn, cheese factory and hay shed form the other three sides. Very often the cheese factory is a part of the house and this dispenses with one building, leaving one side of the court open. In the stable one finds a good concrete floor, good light, and good ventilation all of which aid in the production of clean milk.

After inspecting these quaint and unique buildings to our satisfaction, Mr. Wallace accompanied us across a beautiful rolling pasture to the "low-

Ayrshire Bull in Native Land.

ing kine" at the far end. For six months of the year the cows are left to enjoy the deep tender grasses that have sprung from the touch of the Scot's masterful hand. For the remainder of the year the stock is put in the stable and fed a fine quality of hay supplemented with a few roots and a little grain. It pays an Ayrshire cow to be a good producer for she is fed according to her milk flow. As the cows freshen in the spring and are kept in milk for nine months only, they are usually in fine condition and serve many useful years in the herd.

While we were walking among the cows Mr. Wallace asked me to guess the age of a fine individual which he pointed out. Judging from her fine straight back and her good condition I placed her at about twelve years of age. Imagine my surprise when he informed me that she was eighteen years old and still faithfully doing her duty producing calves and milk. During our ride through the country we had seen a number of black and white cows which aroused our Yankee curiosity. We learned from Mr. Wallace that one time it was the common belief that the black and white cows gave richer milk than did the red and white ones. However, the folly of such an idea was soon realized and consequently only a few animals other than the red and white ones are to be seen. It would be well if American live stock breeders would give less thought to color and more consideration to conformation and production in their animals.

After partaking of a light lunch we mounted our "two-wheeler" and jogged off down the road. In this manner we spent the whole day visiting here and there some of the most famous breeders in Ayrshire. Everywhere we were received with the same hospitality and open heartedness that has made the world love a Scotchman.

EAST STILL HELD IN STORM'S GRIP

New York Almost Isolated by Worst Blizzard Since 1888.

MANY LIVES HAVE BEEN LOST

Wireless Communication is Cut Off and Anxiety Expressed for Safety of 5,900 Passengers—Eleven Dead in New York.

New York, March 3.—New York and vicinity is still in the grip of the most destructive storm in this section of the country since the memorable blizzard of 1888. In and near New York 11 persons perished. More than twenty ships due have not yet arrived, and fears are felt for the safety of the 5,900 passengers they are carrying. Up to a late hour no wireless messages have been received.

Except by round-about routes and with the aid of a few wires running underground, commercial New York remained cut off from telegraph communication with the west and south.

Fire Peril Great. Fire Commissioner Robert Adamson said the danger of a conflagration here was the greatest in years. Eighty per cent of the fire alarm boxes in Brooklyn and Queens 20 per cent of those in the Bronx and all in Staten Island are out of commission and 700 firemen are patrolling the streets watching for blazes. Business is heavily handicapped by train delays, which have prevented the transportation of mails. Stalled trains also bring the city face to face with a possible shortage of milk, meat and provisions, while a coal famine is threatened in some sections of the city because of the snow-filled streets.

The first ocean liners to arrive since Sunday morning reached quarantine. Harbor traffic generally was interrupted, some of the ferries suspending service for the first time in 25 years. Several rescues of tug crews were effected along the Brooklyn waterfront when the boats sank.

Start Snow Trains. Fallen telegraph poles which interrupted wire service continued to delay trains for many hours. The Pennsylvania railroad announced that it had resumed sending out trains regularly from the local terminal at 8:30 p. m. after 25 hours' interrupted service.

Eleven Lose Lives.

The first serious street car accident of the storm here occurred when a trolley snow sweeper, running down-grade on Second avenue, ran into the rear platform of a surface car. An unidentified man was crushed to death and two persons were injured. In the near New York 11 persons perished as a result of the storm.

Thirteen Die in Philadelphia. Philadelphia, March 3.—Wire communication between this city and New York as well as points on the New Jersey coast remains practically at a standstill, but railroad traffic to and from New York has been re-established, although on an uncertain scale. Thirteen deaths due to the storm were reported from the city and near-by sections.

Vice-President Marshall arrived here after being marooned for 14 hours near New Brunswick.

Going Out to Sea.

Washington, March 3.—The storm which gripped the entire east during the last 24 hours was reported to be off Boston and rapidly passing out to sea.

Street lights and part of the street car system of the national capital were out of commission for several hours last night.

Fear for Ship.

Providence, R. I., March 3.—Fears that nine lives were lost on the coal-laden barge Frank Pendleton and Josephus, which were torn loose from the tug Edgar F. Luckenbach off Fire Island light ship in the gale, were expressed here.

POVERTY VOW RULING DUE

U. S. Supreme Court to Decide This Week.

Washington, March 3.—Upon decision of the Supreme court in a case to be considered this week may rest the future of every brotherhood and sisterhood of the Catholic church in the United States. The court will be called upon to decide whether the vows of poverty in these orders are against public policy, as recently decided by the United States circuit court of appeals of the Eighth district.

STONE TAKES BACON'S POST

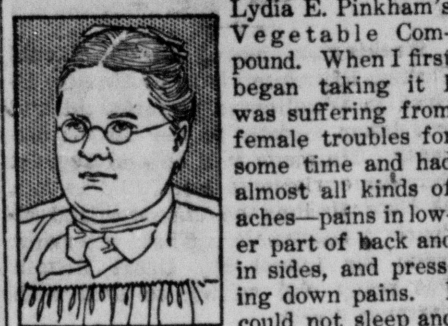

Senate Selects Missourian for Head of the Foreign Relations Committee. Washington, March 3.—Senator William J. Stone of Missouri was made chairman of the senate committee on foreign relations by unanimous passage of a resolution to that effect, offered by Senator Kern of Indiana.

Hotel Patrons Flee Fire.

Danville, Ky., March 3.—Thirty patrons of the Gilcher hotel here were forced to flee in light apparel and without their personal possessions when fire destroyed the building. Other buildings were burned before the flames were controlled, the total loss being estimated at \$75,000.

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

Once Upon a Time.

Once upon a time there lived and flourished in a small city a worthy man. He was devoted to his native place; he loved its streets and stones, its strange odors, its smoke, its high rates, its indifferent water supply, its clubs and cafes and everything about it. Nothing could induce him to leave it even for the briefest period. In vain did the railway companies spread their holiday arrangements before his eyes; he returned with the more satisfaction to his favorite seat overlooking the central square. And, then, one day, the king of that country, who was full of capricious impulses, issued a decree that no one in this little city should ever leave it again, under pain of fearful penalties. And immediately our friend began to be consumed with a longing for travel.—Punch.

Preferred to Curse in Gaelic.

A Highland friend of mine disdains the use of strong language in English on the ground that it is altogether too feeble. When strongly moved he expresses himself in mouth filling curses in Gaelic, the only really satisfying language, he tells me, for any exercises in commination. It sounds blood curdling enough, but being unintelligible to the great bulk of the community relieves him from any charge of using profane expressions. And he tells me, too (though I have to take his word for it), that there is even a kind of fiery poetry in the depth and quality of the invectives. It is a coincidence that the country which gave birth to the game of golf should have also provided the language in which the golfer's vexations can be adequately expressed.—London Chronicle.

SICK, SOUR STOMACH, INDIGESTION OR GAS

"Pape's Diapiesin" makes upset Stomachs Feel Fine in Five minutes

Wonder what upset your stomach

—which portion of the food did the damage—do you? Well don't bother if your stomach is in a revolt; if you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

NELSON NEWS NOTES

Nelson, Mich. 2.—an Palmer spent Saturday and Sunday in Aurora visiting friends.

A little daughter gladdened the home of Mr. and Mrs. F. L. Erwiller Wednesday.

Charles Barton, wife and son Daniel and Miss Kate Ortgiesen of South Dixon and Mrs. L. D. Agnew and son London spent Thursday at the John Ortgiesen home.

F. W. Parks is confined to his home with rheumatism and Mrs. Parks is ill with jaundice. Mrs. Ella Wheeler, a sister from Belvidere, is here caring for them. Saturday Will Parks, a brother from Amboy, and daughter Irene, came and remained at the Parks home until Sunday evening.

On Sunday the house occupied by Mr. and Mrs. J. A. Kane and owned by Mrs. Clara Cunningham, took fire from a defective chimney and had it not been for the prompt action of men of the neighborhood the house would have been destroyed. Mrs. Cunningham wishes to thank all who helped to extinguish the blaze.

Mrs. Gus Bartholomew and sons Alvin and Lloyd Dixon spent the past week with her parents, Mr. and Mrs. John Bohlken. Mr. Bartholomew came Sunday and accompanied them home.

Mrs. Clara Cunningham is confined to her bed by illness.

Aug. Heldt and family moved Friday to the southeast part of the township. This community wishes them well in their new home and all are sorry to lose them from this vicinity.

Mr. and Mrs. Geo. Onken entertained at dinner Sunday the former's sister, Mrs. T. Cornelius and son Fred of Windom, Minn.

ELDENA NEWS NOTES

Eldena, Mich. 2.—Mr. and Mrs. Percy Howard and sister-in-law, Miss Cora Hoffman, spent Sunday with Eph Howard.

Mrs. Cora Howard and children and sister Elsie went to DeKalb to spend a few days.

Mr. Deshon moved to his place east of Eldena last week.

Edward Heimbaugh who has been visiting his parents, Mr. and Mrs. J. D. Heimbaugh, returned to Nebraska, where he will work this summer.

David Howard went to Dixon Saturday.

Mrs. Fred Glessner of Dixon spent a few days here last week.

Fred Shoemaker of Nebraska visited here a couple of days.

Mrs. Earl Howard was in Dixon Saturday.

Russell Mosholder who has been visiting his parents for several weeks, was surprised Wednesday, when 30 friends came and took him to the Eldena hall where they spent the evening with games and music. Later the young ladies served refreshments. Russell left for his home in Brooklyn, Ia., Friday night where he is working on a farm.

John Dodd went to Amboy Saturday.

Mrs. Brook and baby of Dixon spent the past week with her parents Mr. and Mrs. J. D. Heimbaugh.

LeRoy Glessner was in Dixon Saturday.

Wilbur Allen and family spent Sunday evening with his mother, Mrs. Wm. Heckman.

Mrs. Percy Glessner and children are spending a few weeks in Chicago.

"Nothing to Do on the Farm."

Harvest is past, and that means much to some people. They are free from worry; they have no stock to care for; no manure to haul; no hay to make. Their thoughts turn to the Chautauqua, the motor car and the burning questions down at the corner grocer's. Their fences need repair, but they are going to fix them some rainy day. The stately sunflower that ornaments the fence rows is, to them, it would seem, the most beautiful of all flowers, for even the thought of mutilating them is extremely repulsive. If they don't plow any in the fall, it can be done in the spring. They long for the eight-hour day, with but one working day in the week, and would much prefer one that is not too hot.—Nebraska Farmer.

It's Easy to Learn.

Alexander Graham Bell, the inventor of the telephone, hit on his marvelous discovery while studying and while teaching the deaf. At a dinner in Washington Professor Bell said, apropos of this fact: "Yes, we can learn valuable secrets from the most unlikely sources. A Persian poet (famed for his wisdom was once asked by his king where he had learned his philosophy. 'From the blind, sire,' the poet replied—'from the blind, who never advance a step till they have tried the ground.'"

SEE IF CHILD'S TONGUE IS COATED

If cross, feverish, constipated, give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste undigested food and sour bile gently moves out of its little bowels without griping and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

COMPTON NEWS NOTES

Compton, Mich. 2.—Supt. L. W. Miller was here from Dixon Tuesday evening.

John Holdren shelled corn Tuesday.

Jerry Tullis arrived from Indiana Tuesday.

Mr. and Mrs. Emerson Bennett of Dixon were visiting Abraham Bennett and wife and A. E. Bennett on Wednesday.

Philip Stein purchased of S. O. Argraves an Overland car one day last week.

Remember the temperance lecture by Tiwood Bailey in the opera house March 13th.

Women and Ugly Men.

What chance has a homely man to win a prize in the baffling game of matrimony. A good one—in Berlin—where Fraulein Derben has just organized "The League Against Beauty." The members—all pretty girls, of course—have pledged themselves to marry only ugly men because of the theory that handsome mates are unreliable. The moods of My Lady Fair these days are often graver than gay, but love will continue to be "blind." The fat or baldheaded rival of Apollo Belvedere at least is to have an even break, a fair start and no favors, but the same old winners will forge ahead just the same in this new race of hearts.

Changes in Geography.

Should the scheme proposed by Isle of Wight councilors for a tunnel to the mainland go through the island will merely be reverting to its ancient bond of union. For there is the evidence, not only of geology—convincing enough—but of a Sicilian writer, who, speaks of Ictis as a market for tin, the theory being that Ictis is the Isle of Wight, and that an overland route existed just before the beginning of the Christian era, by which the tin was brought from Cornwall. At low water the carts were able to cross the Solent to the Phoenician galleys lying at anchor in Rickaster Cove. One must not forget that in the sixteenth century the Island of Jersey, now separated from the mainland by a gulf of waters, was linked to France by a plank bridge.—London Chronicle.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

Look young! Common garden Sage and Sulphur darkens so naturally nobody can tell

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

FOR RENT. First floor rooms furnished for housekeeping, 3 blocks east of business center, 111 Dixon Ave. 50 3*

NOTICE TO CONTRACTORS.

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, and endorsed proposals for the furnishing of the labor and materials for and the construction of cement concrete curbing, vitrified brick or block pavement with asphalt filler, and the construction of six (6) catch basins and providing for three (3) manhole covers adjusted to grade in, upon and along that portion of North Galena Avenue from the north line of Fellows Street to the north line of the right-of-way of the Illinois Central Railroad Co., in the City of Dixon, Lee Co., Ill., as provided for in Local Improvement Ordinance No. 156, Series of 1913, of said City of Dixon, will be received by the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, at the City Clerk's office in said City of Dixon until 2 o'clock in the afternoon on Friday, the 13th day of March, A. D. 1914, and will be publicly opened by the Mayor of said City of Dixon, (who is president of said Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvements to be held in the Council Chamber in the City Hall in said City of Dixon at 2 o'clock in the afternoon on said day.

Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's office and be open to public inspection for at least forty-eight (48) hours before an award of said contract is made to any competitive bidder. After the expiration of forty-eight (48) hours, as above stated, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City and publicly declare the same.

That the work for which said tenders are invited is the construction of about 370 linear feet of cement concrete curbing, 22" high, 6" wide, at top and 8" wide at bottom, with foundation of sand, gravel, broken stone or cinders 6" deep and 12" wide; 6 catch basins of brick, 5 feet deep and 3 feet internal diameter, with approved cover, grate and curb box and connected to manhole with 10" vitrified pipe; 3 manhole covers adjusted to grade; 1926 cubic yards of excavation; 1199 cubic yards of crushed stone in foundation with filler of sand or screenings; 450 cubic yards of clean sand in cushion; 7191 square yards of vitrified brick or block paving with asphalt filler as provided for in Local Improvement Ordinance No. 156, Series of 1913, of the City of Dixon, Illinois.

Each bid for this work must be accompanied by a certified check or cash for an amount not less than ten (10) per cent of the aggregate of said proposal. All certified checks must be drawn upon some responsible bank and must be payable to the order of the President of the Board of Local Improvements of the City of Dixon in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified check will be held by said Board of Local Improvements until the bids have been canvassed and the contract has been awarded and signed. The return of said certified check or cash to the satisfactory bidder being conditioned upon his appearance within fifteen days after having been notified of the award having been made to him or them, accompanied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and the Council of the City of Dixon.

A bond of Fourteen Thousand (\$14,000.00) Dollars will be required conditioned for the fulfillment of the contract and complying with the ordinance and specifications and to the satisfaction of the Board of Local Improvements and the Council of the City of Dixon. All proposals must be made on blanks which will be furnished bidders at said City Clerk's office.

The payment for the work for which said tenders are invited is to be made in cash or bonds payable when the contract is completed and the work accepted by the Board of Local Improvements and Council of the City of Dixon, bonds to draw interest at five (5) per cent. No bids will be considered unless the party shall furnish evidence satisfactory to said Board of Local Improvements and Council of said City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work.

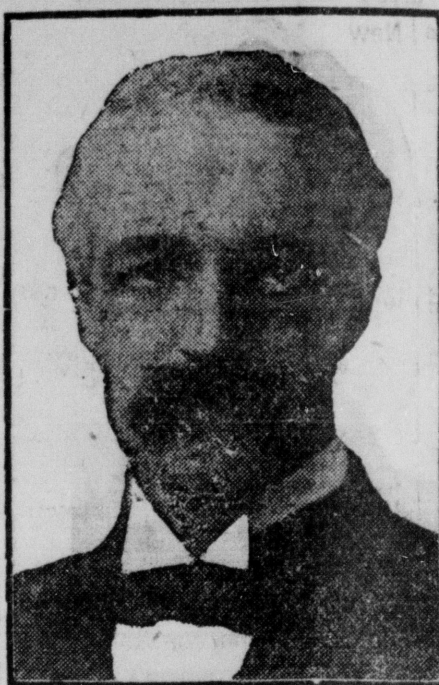

Specifications are on file in the Mayor's office and may be seen at either the office of the Mayor or City Clerk of the City of Dixon.

The Council and Board of Local Improvements reserve the right to reject any and all bids.

Dated at Dixon, Illinois, March 2nd, A. D. 1914.
Signed:
THE COUNCIL AND BOARD OF LOCAL IMPROVEMENTS OF THE CITY OF DIXON, ILLINOIS
By Mark C. Keller,
Their Attorney. 51 10

GIFFORD PINCHOT

Gifford Pinchot, former chief forester of the United States, has announced his candidacy for the United States senate to succeed Boies Penrose of Pennsylvania. He is the unanimous choice of the Progressive leaders of the state.

RECOVERS HIS MEMORY

Prof. M. W. Harrington Found After 15 Years.

Former Weather Chief Discovered in Sanitarium by His Wife—Friends Thought He Was Dead.

Detroit, Mich., March 3.—Prof. Mark Walrod Harrington, former member of the faculty of the University of Michigan and for four years director of the United States weather bureau at Washington, whose disappearance 15 years ago and subsequent reappearance minus his memory attracted widespread attention, is living in retirement at Lanesdale, Pa., according to a letter received here by a friend.

Few of his Detroit friends knew that he was still alive. The letter, written by the professor's wife, says his memory is improving. His disappearance is thought to have been due to a stroke of lightning.

Born at Sycamore, Ill., in 1848, he was educated at Evanston, Ill., and graduated from the University of Michigan. In 1881, he became director of the United States weather bureau. In 1897, he retired to private life after two years as president of the Washington State university.

Then came his disappearance. The country wide search made by his wife and the authorities was fruitless for several years, until a man who was identified by Mrs. Harrington as her husband, was located in a sanitarium in New Jersey. He remembered nothing of his past.

Professor Harrington is the author of numerous scientific articles and until 1892 was editor of the American Meteorological Journal.

O. K. HOME RULE WAR PACT

Notables Pledged to Prevent Operation of Coming Law.

London, March 3.—Lord Roberts, Viscount Milner, Baron Balfour of Burleigh, Rudyard Kipling, Prof. Albert Venn Dicey, Sir William Ramsay and 20 less prominent persons issued an appeal to fellow countrymen to follow their example in signing an anti-home rule declaration. This is milder than the Ulster covenant, but the signers hold themselves in case the Irish home rule bill becomes a law without being submitted to the judgment of the nation at an election, "justified in taking or supporting any action that may be effective to prevent its being put in operation."

TO HONOR GOETHALS TONIGHT

National Geographic Society Has Medal for Colonel.

Washington, March 3.—President Wilson on behalf of the National Geographic society will present the society's special gold medal to Col. George W. Goethals, builder of the Panama canal at the ninth annual banquet of the scientific organization in Washington tonight.

Colonel Goethals will be the guest of honor and Secretary of State Bryan will be toastmaster.

PROGRESSIVES WIN IN MAINE

Carry Mayoralty and City Council at Auburn.

Portland, Me., March 3.—Progressives were successful in Auburn, the only one of the ten Maine cities holding elections in which a straight Progressive ticket was opposed by straight Republican and Democratic tickets. A. W. Fowles was re-elected mayor with a Progressive city council.

Filipinos Ask Independence.

Washington, March 3.—The Philippine assembly adopted resolutions urging the American congress to provide at the present session for the independence of the islands, according to a cablegram received by Delegate Quezon.

Chicago's Mayor Back on Job.

Chicago, March 3.—Weighing 18 pounds less than he did three weeks ago—his toll to bronchitis—Mayor Harrison resumed his duties.

SEEKS TO REOPEN BENTON INQUIRY

President Hopeful He May Convince Carranza of U. S. Right to Befriend Britain.

COUNTS WAR COST; WARNS

Rebel Chief Backs Up Villa Who Refused Passports to Investigating Board—Gustav Bauch Was Executed.

Washington, March 3.—Left in a predicament by General Carranza's determination to maintain the dignity of his revolutionary chieftainship at the expense of the United States and Great Britain, the state department is now endeavoring to reach an agreement with the constitutional leader by which the investigation into the Benton matter may continue.

Officials here were hopeful that a way could be found to surmount the obstacles interposed by the constitutionalists.

Will Become More Firm.

A new tone with regard to the Mexican situation was perceptible at the White House and was generally interpreted as an indication of a forthcoming stiffening of the administration policy.

For the first time the president seemed to be giving thought to the possibility of intervention as a real factor in the situation. At any rate he took occasion to warn those persons who are urging vigorous action in Mexico of what it would cost in human life and to caution them that they must be prepared to pay the price of such a course. He urged patience upon these Americans.

Able to Wait, Says Wilson.

Asked whether, in view of the new developments, a change of policy was intended by the United States immediately, the president pointed out that a country of the size and power of the United States could afford to wait just as long as it pleased; that nobody doubted its power and nobody doubted that Huerta eventually was to retire; that there need be no hesitation in forming the judgment that what the United States wished to accomplish in Mexico would be accomplished, but that those who were in haste to have things done were forgetting that they would have to do them themselves; that they would have to contribute brothers and sons and sweethearts to do it if they wished something done right away. If they were willing to wait, the president indicated, such a step might not be necessary.

The president was referring, it was presumed, to speeches in congress demanding radical action of some kind or armed intervention, which he seemed to deplore.

Carranza Gags Villa.

Chihuahua, March 3.—While General Villa was announcing his belief that Gustav Bauch had been assassinated and insisting that "of course I can't be held to blame for that," General Carranza, who poses as president of the provisional rebel government of Mexico, ordered him to keep out of international affairs. This explained why Villa canceled his arrangements to let an American-British commission of inquiry examine the body of W. S. Benton, British subject mysteriously put to death under Villa's orders at Juarez.

Carranza notified Villa that hereafter "the president" would handle all diplomatic subjects himself.

Villa declined to give details in the Bauch mystery, but said that after the American accused of being a spy was freed at Juarez he "doubtless was assassinated by some of his enemies."

Meantime the mystery grew as to where the body of Benton lay buried. Villa had told Consul Fletcher that it was buried in the Pantheon de la Reglar.

Villa Obeys Carranza.

Nogales, Sonora, March 3.—General Venustiano Carranza upheld the action of General Villa in halting the commission investigating the death of a British subject, William S. Benton. He took the stand that requests for any information regarding Benton's death should come to him through diplomatic agents of Great Britain.

On Mission to Carranza.

El Paso, March 3.—The Benton investigating commission rested on the diplomatic sidetrack while Washington and Venustiano Carranza were reported to be rounding a new phase of negotiations through an American consul.

George C. Crothers, special agent of the state department, left town to visit Carranza.

Fresh reports indicated that Gustav Bauch, an American, had been killed at Juarez. Carranza was called on for a satisfactory explanation of Bauch's disappearance. It was pointed out to the rebel chieftain that failure to protect all foreigners would be likely to lead to grave complications.

Asks Governor for Troops.

Austin, Tex., March 3.—An urgent appeal for Texas rangers at Lyford and other points along the Mexican border near Brownsville was received by Gov. O. B. Colquitt from residents. The complainants allege that Mexican bandits crossed the Rio Grande at night, stole cattle or committed other depredations and then returned to the Mexican side. Governor Colquitt has not yet decided what to do.

Reports of 30,000 Cases of Kidney Trouble, Some of Them Dixon Cases.

Each of the 6,000 newspapers of the United States is publishing from week to week, names of people in its particular neighborhood, who have used and recommended Doan's Kidney Pills for kidney backache, weak kidneys, bladder troubles and urinary disorders. This mass of proof includes over 30,000 recommendations.

Dixon is no exception: Here is one of the Dixon cases.

John Salzman, 103 Artesian Ave., Dixon, Ill., says: "I had backache a great deal and pains across my loins. My kidneys did not act regularly and I felt miserable in every way. Finally I used Doan's Kidney Pills, procured at Leake Bros. Co.'s Drug Store and they did good work, relieving me. I keep them in the house and whenever I take them, they help me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Salzman had. Foster-Milburn Co., Props., Buffalo, N. Y.

ROADS HIT BY LAMAR

Tells Interstate Commerce Body

They Gave Rebates.

Asserts Steel Corporation Has Re-

ceived \$75,000,000 During the

Last Six Years.

Washington, March 3.—In an at-

tempt to ascertain what foundation

there may be for charges that the

United States Steel corporation has

received, during the last six years, il-

legal rebates from the railroads on

freight charges, Commissioner Harlan

of the interstate commerce commis-

sion examined David Lamar of New

York and William H. Green of Ne-

braska upon whose allegations the sen-

ate based a resolution requesting the

commission to inquire into the mat-

ter.

Lamar testified that during the last

six years the steel corporation had re-

ceived not less than \$75,000,000 in re-

bates from railroads, direct evidence

of which could be obtained by exam-

ination of the books of the corpora-

tion and subsidiary transportation

companies.

He named the Union railway, Du-

luth & Iron Range railroad, Pittsburgh

& Conneaut Dock company, Bessemer

Steamship company, Duluth, Massaba

& Northern and Elgin, Joliet & East-

ern as the companies which had paid

the rebates.

"The device to pay the rebate," said

Mr. Lamar, "was simply to raise the

freight rates on iron ore and other

commodities to an extortionate

amount. The difference between the

charges actually collected and a rea-

sonable charge was paid back to the

steel corporation owners of the stocks

in the form of dividends, which ranged

from 25 per cent. to 200 per cent."

CLEW IN BOMB MURDER

Mysterious Decatur Man Sought by

Police.

Decatur, Ill., March 3.—A mysteri-

ous Decatur man said to be a sweet-

heart of Mrs. Dona Mennerich is be-

ing sought as the man responsible for

the death of Fred W. Mennerich,

her husband, who was blown to pieces

by an infernal machine at Sullivan

Sunday.

A Sullivan man said Mennerich had

told him of his domestic troubles and

that he feared violence at the hands

of this man. John Balcom, who was

implicated by a note left by Men-

nerich, was held to the grand jury

pending investigation by the coroner's

jury. The note read as follows: "To

whom it may concern: This is to

state that should this package prove

an infernal machine, John Balcom of

Sullivan, Ill., is to be held responsi-

ble."

EXPRESS FIRM MAY QUIT

Rumored That U. S. Concern Might

Leave Field.

New York, March 3.—Because of

the tremendous inroads made on its

business by the parcel post, the United

States Express company was rumored

to be preparing to liquidate and go

out of business. The report was

heard everywhere in the financial dis-

trict and was given general credence

on the New York Stock Exchange.

According to the rumor, the company

is considering amalgamating with an-

other company.

Belgian King Will Be Aviator.

Brussels, March 3.—It is stated that

as soon as he has recovered from the

injuries sustained recently by being

thrown from his horse, King Albert

will go to France and take an examina-

tion for a military aviator's certificate.

Fire Destroys Flour Mill.

Moorhead, Minn., March 3.—Dwight

& Baldwin's flour mill, together with

15,000 bushels of wheat, was destroyed

by fire, with an estimated loss of

\$55,000. The fire originated in the

shart near the top of the mill.
